**INTERIM UNCONSOLIDATED FINANCIAL STATEMENTS OF
31 MARCH 2026 TOGETHER WITH AUDITOR'S REVIEW REPORT**

**(Convenience translation at publicly announced unconsolidated
financial statements and Independent Auditor's Report originally
issued in Turkish, See Note. I. of Section three.)**

AUDITOR’S REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

Convenience translation of the independent auditor’s review report originally issued in Turkish, See Note I of Section Three

To the General Assembly of İstanbul Takas ve Saklama Bankası Anonim Şirketi;

Introduction

We have reviewed the accompanying unconsolidated balance sheet of İstanbul Takas ve Saklama Bankası Anonim Şirketi (“the Bank”) at 31 March 2026 and the related unconsolidated statement of profit or loss, unconsolidated statement of profit or loss and other comprehensive income, unconsolidated statement of changes in shareholders’ equity, unconsolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the financial statements for the three-month period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial information in accordance with the Banking Regulation and Supervision Agency (“BRSA”) Accounting and Financial Reporting Legislation which includes “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by BRSA and Turkish Accounting Standard 34 “Interim Financial Reporting” for those matters not regulated by the aforementioned regulations. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, “Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial information does not present fairly in all material respects the financial position of İstanbul Takas ve Saklama Bankası Anonim Şirketi at 31 March 2026 and its financial performance and its cash flows for the three-month period then ended in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on other regulatory requirements arising from Legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section Seven, is not consistent with the reviewed unconsolidated financial statements and disclosures in all material respects.

Additional Paragraph for Convenience Translation:

BRSA Accounting and Financial Reporting Legislation explained in detail in Section Three differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board including the application of IAS 29 - Financial Reporting in Hyperinflationary Economies as of 31 March 2026. Accordingly, the accompanying unconsolidated financial statements are not intended to present fairly the unconsolidated financial position, results of operations, changes in equity and cash flows of the Bank in accordance with IFRS.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

SECTION ONE

GENERAL INFORMATION

I. Bank's establishment date, start-up statute, history about the changes in this mentioned statute

The Bank was originally set up as a department of the Borsa İstanbul A.S. ("BIAS") (formerly "İstanbul Menkul Kıymetler Borsası") and reorganized under a separate company named IMKB Takas ve Saklama A.S. on 12 July 1991, was transformed into a non-deposit taking bank on 8 August 1995 with the name IMKB Takas ve Saklama Bankası A.S., as published in the Official Gazette dated 23 March 1995 with the decision of the Council of Ministers No. 95/6551. According to the decision made in 18th Ordinary Meeting of the Bank General Assembly dated 29 March 2013, title of the Bank has been changed into İstanbul Takas ve Saklama Bankası A.S. (Here in after referred to as "Takasbank" or the "Bank") and this title change was approved in 11 April 2013. The name of the Bank has been renovated as "Takasbank" or "Takas İstanbul" with the resolution of the ordinary general meeting dated 9 June 2017 and numbered 22.

II. Explanation about the Bank's capital structure, shareholders who directly or indirectly, solely or jointly undertake the management and control of the Bank, any changes in the period, and information on the Bank's risk group

As of 31 March 2026 and 31 December 2025, the shareholders' structure and their respective ownerships are summarized as follows:

No	Name of Shareholders	Current Period			Prior Period		
		Paid in Capital	%	Number	Paid in Capital	%	Number
1	Borsa İstanbul A.Ş.	385,067	64.18	1	385,067	64.18	1
2	Tacirler Yatırım Menkul Değerler A.Ş.	30,000	5.00	1	30,000	5.00	1
3	Phillip Capital Menkul Değerler A.Ş.	30,000	5.00	1	30,000	5.00	1
4	Türkiye Garanti Bankası A.Ş.	29,685	4.95	1	29,685	4.95	1
5	Yapı Kredi Yatırım Menkul Değerler A.Ş.	26,280	4.38	1	26,280	4.38	1
6	Türkiye İş Bankası A.Ş.	26,235	4.37	1	26,235	4.37	1
7	Türkiye Vakıflar Bankası T.A.O.	26,235	4.37	1	26,235	4.37	1
8	Other (Aracı Kurum)	26,397	4.40	24	26,397	4.40	24
9	Other (Bank)	20,101	3.35	8	20,101	3.35	8
Total		600,000	100.00	39	600,000	100.00	39

64.18% of the Bank's share belongs to BIAS. BIAS was established on the date of the entry into force of the Law to carry out stock market activities in accordance with Article 138 of the Capital Markets Law No. 6362, which was published in the Official Gazette on 30 December 2012 and entered into force. BIAS shall ensure that capital market instruments, foreign exchange and precious metals and precious stones and other contracts, documents and valuables deemed appropriate by the Capital Markets Board can be bought and sold in a transparent, effective, competitive, honest and stable environment easily and safely under the conditions of free competition markets, platforms and systems and other organized market places to facilitate the gathering of these orders and to determine and announce the prices that are formed and to establish and establish and maintain these and other stock exchanges or other market places is an institution with private legal entity established on the basis of the Capital Markets Law No. 6362 to manage and/or operate the markets of the stock exchanges

Dividend payment

At the General Assembly meeting held on 26 March 2026, it was decided to make a dividend payment of TRY5,844,277 to shareholders. Dividend payments will be made on 29 June 2026.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026

Explanations Regarding the Shares They Own in the Bank and Their Areas of Responsibility

None. (31 December 2025: None).

IV. Information on the Bank's Qualified Shareholders

Shareholding in the Bank's shares, except BIAS, does not exceed 5% as stated in the Articles of Association of the Bank. 64,18% of the Bank belongs to BIAS. The Bank has no preferred shares as of 31 March 2026 (31 December 2025: None). The preferred shares belonging to BIAS grants to shareholders the right to nominate four candidates to be elected to the Board of Directors by the General Assembly).

Name Surname Business Name	Share Amount	Share Proportions	Paid-in Shares	Unpaid Shares
BIASBIAS	385,067	64.18	385,067	-

V. Information on the Bank's Function and Areas of Activity

The main purpose of the Bank is to increase our country's market competitiveness by providing settlement and custody services, providing financial services, and performing all types of economic activities within the scope of the relevant legislation.

The areas of activity that are specified in the Bank's Articles of Association, in general, are as follows:

- Providing all financial services, and primarily central bartering services and central counterparty services, activity of settlement and custody, market management, establishing and making payments, transfer and reconciliation systems, and banking activities;
- Financial services related to international markets including all kinds of payments, transfers, settlements, custody, and reconciliation services;
- Performing judiciary activities and signing all agreements related to its subject, signing written contracts, notes, and miscellaneous notes, acquiring all kinds of rights and receivables and binding debts;
- Purchasing, manufacturing, constructing, acquiring in other ways, renting, partially or completely, selling when necessary, transferring and leasing, and establishing all kinds of real rights on moveable and immoveable goods or removing all kinds of moveable and immoveable goods as well as all kinds of rights associated with them;
- All kinds of loaning and borrowing required by its activities, in line with corporate management principles as determined by banking and capital market legislation, as well as providing and obtaining personal in cash or in kind guarantees such as sureties, pledges, mortgages, and enterprise pledges in its favour or in favour of others, and transferring or cancelling these;
- Exporting all types of capital market instruments within the framework of Capital Markets legislation;
- Establish partnerships with domestic and foreign organizations and join existing partnerships.

VI. Current or Likely Actual or Legal Barriers to Immediate Transfer of Equity or Repayment of Debts Between Parent Bank and its Subsidiaries:

None. (31 December 2025: None).

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES

I. Basis of Presentation

Presentation of financial statements

The Bank prepared its financial statements in accordance with the "Regulation on Principles and Procedures Regarding Banks' Accounting Applications and Safeguarding of Documents" published in the Official Gazette dated 1 November 2006 and numbered 26333 and other regulations published by the Banking Regulation and Supervision Agency regarding the accounting and record keeping of banks as well as Banking Regulation and Supervision Agency's "Regulation on Accounting Applications for Banks and Safeguarding of Documents", "BRSA Accounting and Financial Reporting Legislation" and "BRSA Accounting and Financial Reporting Legislation" and "Financial Statements and Related Disclosures and Footnotes to be Publicly Announced by Banks" published in the Official Gazette dated 28 June 2012 and numbered 28333, and "Financial Statements and Related Disclosures and Footnotes to be Publicly Announced by Banks" published in the Official Gazette dated June 28, 2012 and numbered 28333; "BRSA Accounting and Financial Reporting Legislation" and the amendments dated 1 February 2019 to the "Communiqué on Financial Statements and Related Disclosures and Footnotes to be Publicly Announced by Banks" published in the Official Gazette dated 28 June 2012 and numbered 28337.

The format and content of the publicly announced unconsolidated financial statements and notes to these statements have been prepared in accordance with the "Communiqué on Financial Statements and Related Disclosures and Footnotes to be Publicly Announced by Banks" and "Communiqué on Public Disclosures Related to Risk Management by Banks" published in the Official Gazette dated 28 June 2012 and numbered 28337. The Bank maintains its books of account in Turkish Lira in accordance with the Banking Law, Turkish Commercial Code and Turkish tax legislation.

The preparation of financial statements in conformity with BRSA Accounting and Financial Reporting Legislation requires management to make estimates and assumptions about assets and liabilities and contingent assets and liabilities at the balance sheet date. Such assumptions and estimates are reviewed regularly, necessary adjustments are made and the effect of such adjustments is recognized in the statement of profit or loss.

Amounts are expressed in thousands of Turkish Lira ("TRY") unless otherwise stated.

The accounting policies followed in the preparation of the financial statements and the valuation principles applied have been determined in accordance with the regulations, communiqués, explanations, and circulars issued by the BRSA regarding accounting and financial reporting principles, as well as the Turkish Financial Reporting Standards (TFRS) and Turkish Accounting Standard 34 (TAS 34) put into effect by the POA in areas not regulated by the BRSA legislation (collectively referred to as the 'BRSA Accounting and Financial Reporting Legislation').

The Financial Reporting in Hyperinflationary Economies Standard ("TMS 29") addresses economies experiencing high inflation, establishes the threshold for determining whether an economy is considered hyperinflationary, and explains how the financial statements of entities whose functional currency that of a hyperinflationary economy is should be adjusted for inflation. In the announcement published by the Public Oversight, Accounting and Auditing Standards Authority on 23 November 2023, regarding the Inflation Adjustment of Financial Statements of Companies Subject to Independent Audit, regulatory and supervisory institutions were granted flexibility to determine different transition dates for the application of inflation accounting. In this context, with its decision No. 10825 dated 11 January 2024, the Banking Regulation and Supervision Agency (BRSA) set 1 January 2025, as the transition date for banks, financial leasing, factoring, financing, savings financing, and asset management companies to apply TMS 29. Furthermore, based on its decision No. 11021 dated 5 December 2024, no inflation adjustment has been made in the financial statements dated 31 March 2026.

The accounting policies applied in the current period are consistent with those of the previous period's financial statements. The accounting policies followed and the valuation principles used in the preparation of the financial statements are presented in detail.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

II. Explanations on Usage Strategy of Financial Assets and Foreign Currency Transactions

The Bank places its funds in domestic and foreign banks, in interbank money markets, and treasury bills and government bonds. These instruments are assumed to have higher yields compared to other financial instruments and bear lower risk. For the purpose of maintaining sufficient liquidity to meet all claims that might fall due, the Bank makes overnight or weekly placements in money markets. The most significant financing resources are guarantees of the members, short term placements and the shareholders' equity of the Bank. In making long-term placements, the high yield principle is considered, and accordingly, the Bank invests in government bonds and treasury bills.

There are no areas where the Bank's return is above the average return calculated for the Bank's fields of activity. The Bank conducts transactions in money and capital markets. In order to manage foreign exchange and interest rate risks in the areas of transactions, the Bank pays attention to the equality of assets and liabilities in terms of maturity, currency and amount in the balance sheet transactions.

The Bank may make transactions in derivatives or structured products defined as off-balance sheet in order to manage the balance sheet or to ensure the profitability of the transactions. With respect to the transactions in money and capital markets, the transaction limits determined in these markets have been determined as risk limits. The Bank has no transactions in other foreign currencies that give rise to liabilities or have a negative impact on the net asset position.

III. Explanations on Investments in Associates, Subsidiaries and Joint Ventures

Investments in associates and subsidiaries are accounted in accordance with the "Turkish Accounting Standard on Consolidated and Separate Financial Statements Standard" ("TAS 27") and non-financial associates, subsidiaries are stated with their cost values at the financial statements after the provision for impairment deducted.

IV. Explanations on Forward and Options Contract and Derivative Instruments

Bank's derivative instruments mainly consist of swap transactions for hedging purposes. The Bank has no derivative financial instruments designated as hedging instruments or embedded derivative financial instruments.

Receivables and liabilities arising from derivative transactions are recorded in off-balance sheet accounts at their contractual amounts. Derivative instruments are remeasured at fair value after initial recognition. In accordance with the classification of the derivative instrument, if the fair value of a derivative financial instrument is positive, it is recorded to the account "Derivative Financial Assets Measured at Fair Value Through Profit and Loss" or "Derivative Financial Assets measured at Fair Value Through Other Comprehensive Income"; if the fair value difference is negative, it is disclosed in "Derivative Financial Liabilities Measured at Fair Value Through Profit and Loss" or "Derivative Financial Liabilities Measured at Fair Value Through Other Comprehensive Income". Differences in the fair value of trading derivative instruments are accounted as income/loss from derivative financial transactions under "trading income/loss" item in the income statement.

Explanations Regarding Derivative Products for Trading Purposes

Within the scope of balance sheet management, currency swap transactions are conducted for the purpose of liquidity management and the protection of the held portfolio. As of 31 March 2026, the bank does not have any derivative liability recognized as "the portion of changes in fair value of derivative financial liabilities recognized in profit or loss" arising from swap transactions.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

V. Explanations on Interest Income and Expenses

Interest is recorded according to the effective interest rate method (rate equal to the rate in calculation of present value of future cash flows of financial assets or liabilities) defined in the TFRS 9 “Financial Instruments” standard by applying the effective interest rate to the gross carrying amount of a financial asset except for purchased or originated credit-impaired financial assets or financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets.

VI. Explanations on Fees and Commission Income and Expense

Fees and commissions, excluding those that are an integral part of the effective interest rate of financial instruments measured at amortized cost, are accounted for in accordance with the “TFRS 15-Revenue from Contracts with Customers” standard. Fees and commission income/expenses are accounted for on the accrual basis or the effective interest method, depending on the nature of the transaction. Income received in return for services rendered through contracts or transactions such as asset purchase or asset sale for a third natural or legal person are transferred to income accounts in the period they are collected.

The Bank performs banking services by establishing and operating central clearing and central counterparty services, custody activities, market operation, payment, transfer and settlement systems. The Bank collects fees and commissions from its customers for the services it provides, including custody, clearing, membership, interest accrual, market operation, fund transfer services, transaction commissions, securities lending market operations, fund/partnership services, TEFAS and BEFAS fund price notifications, cash correspondent services, account transactions and reporting, transaction/contract amendments, account opening, maintenance and transfer, CSD (Central Securities Depository) data storage and reporting, collateral deposit and withdrawal, fund valuation and reporting, crowdfunding custodian services, numbering and code inquiry, data dissemination, conditional transfer, electronic central collateral registry (EMKT), cheque default calculation, local/foreign currency payments, delayed EFT, position transfer, VIOP option exercise, VIOP give-up revenues, individual pension services, collateral and guarantee fund management, electronic reference letter management, distressed member portfolio management, SWIFT member email reports, BİGA trading commissions, physical gold delivery requests against BİGA, land registry clearing, and vehicle clearing services.

The fees and commissions are recognized under the "Fee and Commission Income" account item on an accrual basis at the time of the transaction, daily, monthly, or annually, depending on the type of service.

VII. Explanations and Disclosures on Financial Assets

The Bank recognizes its financial assets as “Fair Value Through Profit or Loss”, “Fair Value Through Other Comprehensive Income” or “Measured at Amortized Cost”. Such financial assets are recognized or derecognized according to TFRS 9 Financial Instruments. The Bank recognizes a financial asset or financial liability on its balance sheet only when it is party to the contractual provisions of the financial lease. The Bank derecognizes a financial asset only when the contractual rights to cash flows from the financial asset have expired or the financial assets have been transferred and the conditions for derecognition have been met. A financial liability (or part of a financial liability) is only recognized when the liability has expired; in other words, it is removed from the statement of financial position when the obligation specified in the contract is fulfilled, canceled or time out.

The Bank categorizes its financial assets as “Fair Value Through Profit/Loss”, “Fair Value Through Other Comprehensive Income” or “Measured at Amortized Cost” based on the matters below:

- The business model used by the entity for the management of financial assets,
- Properties of contractual cash flows of a financial asset.

When the business model determined by the Bank management is changed, all financial assets affected by this change are reclassified. Reclassification of financial assets is applied prospectively from the date of reclassification. In such cases, there no adjustment to earnings, losses (including impairment gain or loss) or interest received previously in the financial statements is made.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. Explanations and Disclosures on Financial Assets (Continued)

a. Financial Assets at Fair Value Through Profit or Loss

Financial assets at fair value through profit/loss are financial assets that are either acquired for generating a profit from short-term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making.

Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement.

b. Financial Assets at Fair Value Through Other Comprehensive Income

Financial assets are classified as fair value through other comprehensive income if the assets are being held in line with a business model that aims collection of contractual cash flows or sale of assets and additionally if the contractual terms of the financial asset lead to cash flows that solely include the payments of principal and interest on certain dates.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive profit or loss and dividend income from equity securities are recorded to profit or loss statement. "Unrealized gains and losses" arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the "Accumulated other comprehensive income or expense to be reclassified through profit or loss" under shareholders' equity. When these securities are collected or disposed of, the accumulated fair value differences reflected in the equity are reflected to the profit or loss statement.

c. Financial Assets Measured at Amortized Cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in profit or loss statement.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. Explanations and Disclosures on Financial Assets (Continued)

d. Loans

Loans are financial assets that have fixed or determinable payments and are not traded in an active market.

Cash loans provided by the Bank are extended primarily on an overnight basis, with a maximum one - month maturity, to brokerage firms within the limits set by the Board of Directors, aiming to enhance efficiency and convenience in capital market transactions. Additionally, brokerage firms can also obtain loans for investment funds, and the upper limit of the limit to be allocated for the investment fund is determined to be limited by the cash credit limit. Furthermore, in order to meet the short-term funding needs that may arise during the completion of collateral requested to cover the risks arising from the Borsa Istanbul Equity Market participants, a maximum overnight settlement loan may also be provided within the specified limit.

Loans recognized at cost and are valued at amortized cost using the effective interest method.

Explanations on the Impairment of Financial Assets Recognition of Financial Statements of Expected Credit Losses

In accordance with the “Regulation on Procedures and Principles for the Classification of Loans and Provisions to be Issued” published in the Official Gazette dated 22 June 2016 and numbered 29750, the Bank calculates the expected credit loss provision in accordance with TFRS 9 and indicates in its financial statements. Expected credit losses related to cash and cash equivalents under financial assets, other receivables, loans and non-cash loans are calculated and accounted.

Provisions provided by the Bank under TFRS 9; the expected credit loss provision amounts for 12 months and the expected credit loss provision amounts due to a significant increase in the credit risk of the borrower and the expected lifetime credit loss provisions for the default of the debts are considered as special provisions.

For non-impaired financial assets, the expected credit loss provision for twelve months is calculated and set aside for the initial recognition stage. For these financial assets, effective interest rate is used over the gross book value.

Although not available for the reporting period, the expected lifetime credit loss is calculated and set aside for non-impaired financial assets that have significant increase in credit risk after initial recognition. For these financial assets, effective interest rate is used over the gross book value.

The expected lifetime credit loss provision is calculated and set aside for financial assets that are purchased or created with impaired loans. For these financial assets, effective interest rate is applied through net book value.

The definition of default is included in the Communiqué on the calculation of the credit risk amount based on the internal rating approach. It is assumed that the debtor defaults in the event that the debtor is unable to fully pay the debts to the Bank without applying for collateral or if the debtor has delayed more than 90 days to fulfill his significant liabilities to the Bank.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. Explanations and Disclosures on Financial Assets (Continued)

Expected credit losses for financial assets, other receivables and loans under the title Cash and cash equivalents are recognized under “Expected loss reserves (-)” on the asset side of the balance sheet.

The expected credit loss provisions calculated for the transactions classified as non-cash loans due to the market where the Bank is the Central Opposite Party and the guarantor are listed under the “Other Provisions” heading on the liabilities of the balance sheet.

The total provision for credit losses under TFRS 9 is classified under “12 Months Expected Loss Equivalent- (First Stage)”. There is no allowance for credit losses classified under “Significant Increase in Credit Risk (Second Stage)”.

The basic principles for calculating the Bank “Expected credit loss provisions” are as follows:

- Information considered in the expected credit loss accounting should be reasonable, reliable and supportable.
- Country risk is also taken into account when calculating provisions for expected credit losses.
- Provision for loans can be higher than their loan-based counterparts, taking into account the size, type, currency, interest rate structure, borrowing sector, collaterals and similar concentrations over time, credit risk level and management.
- The approach used to assess expected credit losses is consistent with the bank's credit risk management.
- The information used should include the borrower-specific factors, the general economic conditions and the assessment of the effects of these factors and circumstances at the reporting date on the current and future periods. Potential sources of information include the Bank's credit disposal experience, internal or external credit ratings, reports and statistics.
- If the financial instrument is determined to have low credit risk at the reporting date, the Bank may assume that the credit risk in the financial instrument has not increased substantially since the first time it was recognized.

VIII. Explanations on Impairment of Financial Assets

At each balance sheet date, the Bank assesses whether there is objective evidence that a financial asset or a group of financial assets has suffered an impairment and whether it meets the classification requirements in accordance with TFRS 9. The Bank determines the amount of the impairment if such indicator exists as mentioned. Related accounting policy is explained in footnote VII.

IX. Explanations on Offsetting of Financial Assets and Liabilities

Financial assets and liabilities are offset when the Bank has a legally enforceable right to set off, and when the Bank has the intention of collecting or paying the net amount of related assets and liabilities or when the Bank has the right to offset the assets and liabilities simultaneously. Otherwise, no offsetting is made with respect to financial assets and liabilities.

X. Explanations on Sales and Repurchase Agreements and Lending of Securities

Repurchase agreements are classified as their purposes on the securities portfolio and evaluated by the principals of the portfolio which they belong to. The Bank has no repurchase transaction as of the balance sheet date.

Receivables from reverse repurchase agreements are accounted for under “Receivables from Reverse Repurchase Agreements” account in the balance sheet. The difference between purchase and sale price determined by these agreements is accrued over the life of agreements according to effective interest rate method. Income accruals are recognized as a liability under other liabilities in liabilities when they belong to problematic members. As of 31 March 2026, the outstanding balance of reverse repurchase and collateralized security transactions amounts to TRY 13,014,243.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XI. Explanations on Assets Held for Sale and Discontinued Operations

According to “TFRS 5 Non-Current Assets Held for Sale and Discontinued Operations” which satisfy to be classified as held for sale are measured by the lower of carrying value and fair value less costs to sell and these assets are not amortized; and are separately presented in the financial statements. For an asset (or else the group of assets) to be classified as held for sale; the asset should be ready for immediate sale in frequently seen and accustomed terms and the probability of sale should be high. For the probability of sale to be high, appropriate level of management should have made a plan for the sale of the asset (or else the group of assets) and a program should have been initiated in order to determine buyers as well as complete the plan. Also the asset (or else the group of assets) shall be actively marketed in conformity with its fair value. On the other hand, the sale is expected to be journalized as a completed sale within one year after the classification date; and the necessary transactions and procedures to complete the plan should demonstrate the fact that the possibility of making significant changes or cancelling the plan is low. Certain events and conditions may extend the duration of completion of sale to more than one year.

If such delay arises from any events and conditions beyond the control of the entity and if there is sufficient evidence that the entity has an ongoing disposal plan for these assets, such assets (or else group of assets) are continued to be classified as assets held for sale (or else group of assets). A discontinued operation is a division of a bank that is either disposed or held for sale. Results of discontinued operations are included in the income statement separately.

A discontinued operation is a part of a bank classified as held for sale or held for sale. The results of discontinued operations are presented separately in statements of profit or loss.

The Bank has no assets held for sale as of the balance sheet date.

The Bank has no discontinued operations during the period.

XII. Explanations on Goodwill and Other Intangible Assets

As of the balance sheet date, there is no goodwill in accompanying unconsolidated financial statements of the Bank.

The intangible assets which have been bought before 1 January 2005 are amortized based on historical cost which has been revised according to inflation effects dated 31 December 2004 and the items which have been bought in the following dates are amortized based on purchase cost with the allocation of accumulated depreciation and impairments. The intangible assets are amortized based on straight line amortization regarding useful life periods. The amortization method and period are revised periodically every year.

Intangible assets of the Bank are basically software license costs. Useful lives of other intangible assets are determined by the consideration of items such as; useful life of asset, maintenance costs incurred to obtain expected economic benefit from assets and technical, technological or any other type of obsolescence. Amortization method used in the current period is not subject to any change. Depreciation period is 5 years (20% annual depreciation rate) for establishment/formation expenses for other intangible assets with uncertain leasing period or leasing period over five years and depreciation rate is proportional with period for those with certain leasing period. Economic useful lives determined are in accordance with the criteria stated in the Turkish Accounting Standards-TAS 38-Intangible Assets. Computer programs widely used in the Bank are generated within the Bank by the personnel of the Bank and the expenses related to those assets are not capitalized. Computer software is only purchased in case of urgent need and special projects.

Within the scope of the agreement made between Borsa İstanbul and Nasdaq, new Bistech technology, which was developed under Borsa Istanbul’s processing system; data distribution; index calculation; market surveillance; reporting systems; and also the Bank’s swap and risk management systems, has a useful life of 20 years.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XIII. Explanations on Tangible Assets

Tangible fixed assets are initially recognized at acquisition cost and any other cost incurred so as to get the fixed asset ready for use.

Tangible fixed assets are depreciated with straight-line method. Tangible fixed assets are depreciated with the rates determined by the Ministry of Finance based on useful lives. These useful lives are in line with the criteria stated in "TAS 16 - Tangible Assets" released by Turkish Accounting Standards Board. Depreciation Rates for Tangible Fixed Assets are as following:

	Estimated Useful Life (Year)
Buildings	36-50 Years
Plant machinery and equipment	4 Years
Vehicles	5 Years
Flooring and fixtures	5 Years
Special Costs	5 Years
Rights	3 Years
Development costs	5 Years

Tangible fixed assets are accounted for at cost less accumulated depreciation and impairment, if any.

Gain or loss resulting from disposals of the tangible fixed assets is reflected to the income statement as the difference between the net proceeds and net book value.

Maintenance costs of tangible fixed assets are capitalized if they extend the economic useful life of related assets. Other maintenance costs are expensed. There are no pledges, mortgages or other restrictions on the tangible fixed assets.

XIV. Explanations on Leasing Transactions

The "TFRS 16 Leases Standard," which encompasses the operational lease transactions to which the Bank is a party, was adopted by the Bank in January 2019. For leases where the Bank acts as the lessee, the Bank has applied the model prescribed by the standard, excluding low-value assets and short-term leases (of one year or less).

The interest on the lease liability for each period of the lease term, is the amount calculated by charging a fixed periodic interest rate on remaining balance of lease liability.

In the event of a change in the initial lease term or the exercise of a purchase option, the Bank uses a revised discount rate that reflects changes in the interest rate.

The Bank remeasures the lease liability by discounting the revised lease payments using a revised discount rate for a lease modification that is not accounted for as a separate lease, at the effective date of the lease modification. The revised discount rate is determined as the alternative borrowing interest rate at the effective date of the modification. The Bank decreases carrying amount of the right-of-use asset to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease. Any gain or loss relating to the partial or full termination of the lease is recognized in profit or loss. A corresponding adjustment to the right-of-use asset is made for all other lease modifications.

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XV. Explanations on Provisions and Contingent Liabilities

Provisions and contingent liabilities are accounted in accordance with “Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets” (“TAS 37”).

Provisions on financial statements, if an existing obligation resulting from past events, it is probable that the obligation will be met and the obligation can be reliably measured. Provisions are calculated based on the Bank management’s best estimate of the expenditure required to settle the obligation at the balance sheet date and are discounted to the fair value where the effect is material.

XVI. Explanations on Liabilities Regarding Employee Benefits

Obligations related to employment termination and vacation rights “Turkey Accounting Standards Regarding Employee Benefits” (“TAS 19”) are accounted for in accordance with the provisions.

Defined Benefit Plans

In accordance with existing social legislation in Turkey, the Bank is required to make lump-sum termination indemnities over a 30 day salary to each employee who has completed over one year of service, whose employment is terminated due to retirement or for reasons other than resignation or misconduct, and due to marriage, female employees terminating their employments within a year as of the date of marriage, or male employees terminating their employments due to their military service. The Bank is also required to make a payment for the period of notice calculated over each service year of the employee whose employment is terminated for reasons other than resignation or misconduct. Total benefit is calculated in accordance with TAS No: 19 “Turkish Accounting Standard on Employee Benefits”.

Such benefit plans are unfunded since there is no funding requirement in Turkey. The cost of providing benefits to the employees for the services rendered by them under the defined benefit plan is determined by independent actuaries annually using the projected unit credit method.

In calculating the related liability to be recorded in the financial statements for these defined benefit plans, the Bank uses independent actuaries and also makes assumptions and estimation relating to the discount rate to be used, turnover of employees, future change in salaries/limits, etc. These estimations are audited annually. The carrying value of provision for employee termination benefits as of 31 March 2026 is TRY64,948.77 (full TRY)(31 December 2025: TRY53,919.68) (full TRY).

Communiqué on “Turkish Accounting Standard (TAS 19) about Benefits for Employee (No: 9)” published in Official Gazette by Public Oversight Accounting and Auditing Standards Authority (POA) on 12 March 2013 numbered 28585, was entered into force for the account periods starting after 31 December 2013 on accounting treatment of actuarial profit and loss resulting from changes in actuarial assumptions or differences between actual and actuarial assumptions. For the period of 31 March 2026, actuarial gain before deferred tax effect amounting to TRY212 (31 December 2025: TRY1,924 actuarial loss) was classified as “Tax Related Other Comprehensive Income Items Not Reclassified Through Profit or Loss”.

XVII. Explanations on Taxation

Income tax expense represents the sum of the current tax payable and deferred tax.

The current tax payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Bank’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit at enacted tax rates, and it is accounted for using the balance sheet liability method.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XVII. Explanations on Taxation (Continued)

Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax liabilities are recognized for all taxable temporary differences, whereas deferred tax assets resulting from deductible temporary differences are recognized as taxable profit. The carrying amount of a deferred tax asset shall be reviewed at the end of the reporting period. The carrying amount of a deferred tax asset is reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized.

Deferred tax assets and liabilities shall be measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled is recognized in income statement as income or expense. Deferred tax that relates to items that are recognized directly in equity, in the same or a different period, is recognized directly in equity. Deferred tax assets and liabilities are netted off.

The current taxes payable and advance taxes are offset since they relate to each other.

The Bank has adjusted its statutory financial statements with inflation accounting as of 1 January 2004 in accordance with Law No. 298.

Some modifications have been made in the tax legislation with Law 4842 published in the Official Gazette number 25088 on 24 April 2003. Under these modifications, investment and development banks, which are not allowed to accept deposit, are allowed to deduct loan loss provisions from the tax base in accordance with item 2 of the article 20 of Banking Law and the amendment introduced by the article 35 of the Law numbered 4842.

Current Tax

As of 31 March 2026, the corporate tax rate has been applied as 30% in the financial statements. With the publication of Law No. 7394 in the Official Gazette dated 15 April 2022, banks, consumer finance companies, factoring and financial leasing companies, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies. The corporate tax rate has been increased to 25%. However, with the Law No. 7456 published on 15 July 2023, the said rate has been increased to 30% to be applied to the cumulative bases included in the declarations that must be submitted as of 1 October 2023; The corporate tax rate will be applied as 30% in the future periods, starting from the provisional corporate tax return to be submitted for the period 1 January 2026 – 31 March 2026.

The corporate tax rate is applied to the tax base to be found as a result of adding the expenses that are not accepted as deductions in accordance with the tax laws to the commercial profits of the institutions, and deducting the exemptions (such as the participation earnings exemption) and deductions in the tax laws. No further tax is paid if the profit is not distributed.

There is no withholding tax on dividends paid to non-limited taxpayer institutions that generate income through a workplace or permanent representative in Turkey and to institutions resident in Turkey. Dividend payments made to individuals and institutions other than these are subject to 15% withholding tax. Addition of profit to capital is not considered profit distribution and withholding tax is not applied.

Corporations calculate advance tax on their quarterly financial profits and declare it until the 14th day of the second month following that period and pay it until the evening of the 17th day. Advance tax paid during the year is deducted from the corporate tax to be calculated over the corporate tax return to be submitted in the following year. In the event that there is an amount of advance tax paid despite the offset, this amount can be refunded in cash or offset against other financial debts to the state.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XVII. Explanations on Taxation (Continued)

Provided that 50% of the profits arising from the sale of subsidiary shares and real estate held for at least two years are added to the capital for real estate and 75% for subsidiaries, as stipulated in the Corporate Tax Law, or are kept in a special fund account in liabilities for 5 years. is exempt from tax. However, with the Law No. 7456 published on 15 July 2023, this exception has been abolished for real estate to be acquired after the publication date of the decision; If real estate acquired before this date is sold after the effective date of the decision, 25% of the real estate sales gain will be exempt from corporate tax.

According to Turkish tax legislation, financial losses shown on the declaration can be deducted from the period corporate income for a period not exceeding 5 years. However financial losses cannot be offsetted from last year's profits.

In Turkey, there is no practice of reaching an agreement with the tax authority regarding the taxes to be paid. Corporate tax returns are submitted to the relevant tax office by the evening of the last day of the fourth month following the month in which the accounting period closes. However, the authorities authorized for tax inspection may examine the accounting records within five years, and if incorrect transactions are detected, the tax amounts to be paid may change.

Current tax effects related to transactions directly recognized in equity are also shown in equity.

Law No. 7352 on the amendment of Tax Procedural Law and Corporate Tax Law was enacted on 20 January 2022 and it has been decided that the financial statements will not be subject to inflation adjustment in the 2021 and 2022 accounting periods, including the provisional accounting periods, and in the provisional tax periods of the 2023 accounting period, regardless of whether the conditions for inflation adjustment within the scope of Repeated Article 298 are met. Article 17 of the law numbered 7491. With Article 17 of the Law No. 7491, the statement "Banks, companies within the scope of the Financial Leasing, Factoring, Financing and Savings Financing Companies Law dated 21 November 2012 and numbered 6361, payment and electronic money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies, including temporary tax periods, profit / loss difference arising from inflation adjustment made in the 2023 and 2024 accounting periods, including temporary tax periods, is not taken into account in the determination of earnings." to come after the third paragraph of the provisional Article 33 of the Law No. 213. is attached. However, pursuant to Article 34 of Law No. 7571, added to the Tax Procedure Law No. 213 by Temporary Article 37, published in the Official Gazette No. 3318 dated 25 December 2025, it is stipulated that financial statements will not be subject to inflation adjustment in the 2025 accounting period and provisional tax periods, as well as the 2026 and 2027 accounting periods (and for entities with a special accounting period, in the accounting periods ending in 2026, 2027, and 2028), regardless of whether the conditions for inflation adjustment under repeated Article 298 are met or not.

Pursuant to the amendments introduced in Articles 298 (Repeated)/Ç and Temporary Article 32 of the Tax Procedure Law, companies have been granted the opportunity to perform both permanent and temporary revaluations. Accordingly, as of the beginning of the 2022 fiscal period, the Bank initially revalued its fixed assets recorded on the balance sheet in line with Temporary Article 32, and subsequently carried out a revaluation in accordance with Article 298 (Repeated)/Ç. As a result of these transactions, the depreciation amounts subject to corporate tax will be calculated based on the revalued and updated amounts. In accordance with the relevant legislation, the revaluation surplus is presented under a special fund account within shareholders' equity. Due to the non-application of inflation adjustment for the year 2026, the revaluation option that has become available has been utilized in the current period.

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XVII. Explanations on Taxation (Continued)

Deferred Tax

The Bank calculates and reflects deferred tax in its records in accordance with the provisions of the "Turkish Accounting Standard on Income Taxes" ("TAS 12") for taxable temporary differences that arise between the book value of an asset or liability and its tax base value determined in accordance with tax legislation. As of 31 March 2026, deferred tax is calculated at 30% and as of 31 December 2025, deferred tax is calculated at 30%.

Deferred tax liability or asset is determined by calculating the tax effects of temporary differences between the amounts of assets and liabilities shown in the financial statements and the amounts taken into account in the legal tax base calculation, according to the balance sheet method, taking into account the legal tax rates. The bank has calculated deferred tax based on 30% of its assets and liabilities as of 31 March 2026.

While deferred tax liabilities are calculated for all taxable temporary differences, deferred tax assets consisting of deductible temporary differences are calculated provided that it is highly probable to benefit from these differences by generating taxable profits in the future.

The calculated deferred tax asset and deferred tax liability are netted in the unconsolidated financial statements.

However, with the regulation made by the Law No. 7491 on the Amendment of Certain Laws and Decree Laws, it has been regulated that the profit / loss difference arising from the inflation adjustment to be made by the banks in the 2023 and 2024 accounting periods, including the provisional tax periods, will not be taken into account in the determination of earnings. Within the scope defined by the provisions of Article 298 (Repeated) (Ç) and Temporary Article 32 of the Tax Procedure Law (TPL), as well as Communiqué No. 537 of the TPL, taxpayers have been granted the option to perform revaluations on a voluntary basis. However, pursuant to Article 298 (Repeated) (A) and Temporary Article 33 of the TPL, revaluation cannot be performed under Article 298 (Repeated) (Ç) during periods when inflation adjustment is mandatory. Therefore, due to the non-application of inflation adjustment for the year 2026, the revaluation option that has become available has been utilized in the current period.

XVIII. Additional Explanations on Funds Borrowed

The Bank has not issued any convertible bonds. The Bank has also not issued any borrowing instruments.

Cash Warrants Received:

Guarantee Fund purchased within the scope of BİAŞ Markets, BİAŞ Debt and Equity Markets, Takasbank Money Market (TPP), Over-the-Counter Derivatives Market, Takasbank Equity Lending Market (ÖPP), Renewable Energy Resource Guarantee Market (YEK-G), Forward Natural Gas Market (VGP), Natural Gas Market, BİAŞ Futures and Options Market (VIOP), Electricity Market, Electricity Futures Market, BİAŞ Money Market and BİAŞ Precious Metals Market, BİAŞ Swap Market, Investor Compensation Center membership and pledge guarantees, check clearing, vehicle swapping, Cash collateral amounts related to Turkey Electronic Fund Trading Platform (TEFAS), Private Pension Fund Trading Platform (BEFAS), TÜRİB public guarantee management service and other services are monitored in Banks in assets and in Funds in liabilities. The funds in question ensure that in case of cash default of the debtor members, the creditor members are not affected by the delay. Cash guarantee mechanisms have been established to serve the purpose of ensuring continuous cash flow in the market by making the payments on time and accurately.

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XIX. Explanations on Issuance of Equity Securities

The Bank does not have any shares issued in the current period.

XX. Explanations on Acceptances

The Bank performs acceptances with its customers simultaneously and follows them in off balance sheet liabilities. The Bank has no acceptances that have been included as a liability against an asset.

XXI. Explanations on Government Incentives

There are no government incentives utilized by the Bank as of the balance sheet date.

XXII. Explanations on Segment Reporting

Operational segment is distinguishable section of the Bank that has different characteristics from other operational segments per earning and conducts the presentation of service group, associated bank products or a unique product. Reporting on operating segments is disclosed in Note VIII in Section Four.

XXIII. Related Parties

For the purpose of these financial statements, shareholders, key management personnel and board members associated with companies controlled by their families and themselves or affiliated companies, associates and joint ventures are referred to as related parties in accordance with TAS 24 - Related Party Disclosures.

XXIV. Cash and Cash Equivalents

For the purposes of the preparation of statement of cash flows, "Cash" includes cash, effectives, and cash in transit, purchased cheques and demand deposits including balances with the Central Bank; and "Cash equivalents" include interbank money market placements and time deposits at banks with original maturity periods of less than three months.

XXV. Investment Property

Property, and land and buildings held for the purpose of earning rent or appreciation or for both, rather than being used in the production of goods and services or sold for administrative purposes or during the normal course of business are classified as "investment property". Bank is valued Investment Properties with fair value method in accordance with the Turkish Accounting Standard 40 (TAS 40) "Investment Property". Any gains or losses arising from changes in the fair value of investment property are recognized in profit or loss in the period in which they are incurred.

XXVI. Reclassifications

None.

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)

I. Explanations Related to Components of Shareholders' Equity (Continued)

Information on addition debt instruments to shareholders' equity calculating:

None.

Information on applied approaches in order to evaluate internal capital adequacy within the scope of internal capital adequacy evaluation of internal capital requirement in terms of future and current activities:

The evaluation period for internal capital adequacy in the Bank has been designed within accordance with the principle of proportionality and is consistent with the Guidelines on ICAAP Report and Guidelines on Stress Tests To Be Used By Banks For Capital and Liquidity Planning which is published by the Banking Regulation and Supervision Agency, and with the Regulation on Internal Systems of Banks and Internal Capital Adequacy Assessment Process (ICAAP) which entered into effect upon being published in Official Gazette No. 29057 dated 11 July 2014.

The Bank is in compliance with the said regulation and good practice guidelines in line with its small-scale structure, task environment, and requirements. In accordance with ICAAP, it is aimed for the Bank to internally determine a level of capital which covers the risks it has faced or is likely to face and to continue its operations with capital above that level. Maximum attention is paid to the ICAAP processes so that they are implemented with a long-term view and are risk focused, internalized within the Bank and that its consequences are used in the decision-making process.

Evaluations of the Bank's capital and liquidity adequacy are done from a risk-based perspective, considering the strategic plan, three-year budget projections, bank policies on capital adequacy, liquidity and funding, risk measurement outcomes for risks that the company is exposed to ICAAP and stress test reports. Within this scope, activities performed and services provided by the Bank are considered.

The Bank determines its capital level in such a way that it is above the minimum level and legal ratios required by the legal regulations of the Banking Regulation and Supervision Agency, and so that it is able to continue all its operations. Also, scenario analyses, and particular, plenary, and reverse-stress tests are done in order to measure the effects of parameters that affect the financial power of the Bank at the capital level. In addition, via sensitivity analyses, first and secondary structural block risks that the Bank is exposed to are determined within the scope of the proportionality principle.

The Bank takes stress tests, scenario analyses, risk appetites, the capital plan, the strategic plan and budget, the emergency and unexpected situation action plan for various risks, and other issues deemed necessary into consideration, and calculates and establishes a capital planning buffer, which is designed to prevent the capital adequacy level from becoming lower than the internal and legal minimum capital adequacy over the next three years as a result of possible negative situations and losses. The capital planning buffer is determined by considering worst case scenarios. However, the legal capital adequacy ratio determined by the BRSA as at least 12% and the ratio of the internal capital requirement calculated under the stress test are compared. The larger of these ratios is considered as the target ratio and it is evaluated whether the current capital adequacy ratio of the Bank is above the target rate.

According to the "Regulation on Internal Systems and the Internal Capital Adequacy Assessment Process of Banks", the ICAAP report and the Stress Test report are prepared annually with the participation of all relevant units of the Bank and the coordination of the Risk Management Unit. These reports are approved by the Board of Management or the Bank after being examined.

The senior management of the Bank and members of the Board of Management are jointly responsible for designing ICAAP and its implementation within the Bank. All units of the Bank execute their duties, authorities, and responsibilities which are within the scope of ICAAP in accordance with their own regulations. The inspection report regarding the data, systems, and processes is prepared by the Internal Audit Unit, and the validation report regarding the models and/or methods that are used for risk measurement within the scope of the internal capital adequacy calculation is prepared by the Internal Control Unit.

The Bank's activities in the field of credit risk management are carried out under the responsibility of the Board of Directors in compliance with the 'Regulation on Banks' Internal Systems and Internal Capital Adequacy Assessment Process' and the 'Regulation on the Measurement and Evaluation of Banks' Capital Adequacy.' In the calculation of capital adequacy ratios, the credit risk exposure amount calculated using the standard approach is taken into consideration.

INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)

II. Explanations related to currency risk

In addition to foreign clearing, settlement, and custody transaction commissions and the foreign currencies held for its own transactions in accordance with foreign currency-denominated contracts, the Bank is exposed to foreign exchange risk due to the foreign currencies deposited as collateral in its accounts and the foreign currencies remaining in the free accounts of its clients, which include brokerage houses, banks, and other financial institutions. Accordingly, market risk is calculated. The Bank is also exposed to market risk through collaterals received within the scope of the BIAS Markets, BIAS Debt and Equity Markets, Takasbank Money Market (TPP), Over-the-Counter Derivatives Market, Takasbank Securities Lending Market (ÖPP), Renewable Energy Resource Guarantee Market (YEK-G), Natural Gas Futures Market (VGP), Natural Gas Market, BIAS Futures and Options Market (VIOP), Electricity Market, Electricity Futures Market, BIAS Precious Metals Market, BIAS Swap Market, and public collateral management services. Additionally, collaterals held for Investor Compensation Center membership and pledge guarantees, check clearing, Turkish Electronic Fund Trading Platform (TEFAS), Private Pension Fund Trading Platform (BEFAS), and other services contribute to the Bank's market risk exposure. However, with the Communiqué on Required Reserves numbered 2013/15, the liabilities subject to required reserves have been amended, and since the obligations specified in the new communiqué are not in the Bank, required reserves are not established at CBRT.

The Bank calculated a net long foreign exchange of TRY436,546 (31 December 2025: TRY433,977) for the net position between assets and liabilities in foreign currency and recognized it in the amount basis to market risk.

Recognizing FX transactions of the Bank, the risk management policy that is also regarded in TRY transactions is used and asset liability is managed so as not to be exposed to foreign exchange risk in transactions that affect FX assets and liabilities.

The Bank's foreign CBRT exchange bid rates as of the date of the financial statements and five working days prior to that date:

Current Period	1 USD	1 EUR	1 GBP	100 JPY
Current Exchange Rate on Balance Sheet Date	44,3841	51,0236	58,6665	27,7312

III. Explanations Related to Interest Rate Risk

Interest rate sensitivity of the assets, liabilities and off-balance sheet items are measured by the Bank. Cash requirement for every maturity period are determined based on maturity distribution analysis (Gap). In addition, a positive spread between the yield on assets and the cost of liabilities is kept while determining interest rates.

The Bank's fund utilization transactions, including TRY and foreign currency deposit transactions, repo and reverse repo transactions, securities transactions, term and demand placements, foreign exchange buy-sell transactions, and swap transactions, can be conducted with the Central Bank of the Republic of Turkey (CBRT) or other banks. These transactions, carried out by the Treasury Team, are monitored, and the Bank measures the interest rate sensitivity of its assets, liabilities, and off-balance sheet items.

Government Domestic Debt Securities issued by the Republic of Turkey Ministry of Treasury and Finance, Eurobonds, Lease Certificates, Venture Capital and Investment Funds, and debt securities issued by banks established in Turkey were acquired within the Bank's portfolio during the years 2022, 2023, 2024, and 2025. The Bank does not undertake any liability due to using derivative financial instruments attributable to its transactions in evaluating its funding resources.

INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)

IV. Equity Share Position Risk in Banking Accounts

As of 31 March 2026, the Bank has no equity share position risk arising from the equity share and banking accounts (31 December 2025: None)

V. Explanations On Liquidity Risk Management and Liquidity Coverage Ratio

The Bank's main liquidity management strategy is effectively handling of all money market instruments and this instruments' potential risks have influence upon the Bank's balance sheet. Even in the most uncertain market conditions, the Bank maintains risk minimization through reducing risks of market instruments, diversifying instruments, matching of maturities, and obtaining optimum liquidity level. For this reason, the Bank is significantly liquid and is a fund provider in the Over-the-Counter Money Market and CB Interbank markets. Turkish Lira and foreign currency sales transactions with banks are done within the limits determined by the Board of Directors and the compliance of these transactions with limit conditions are controlled by the Internal Control Unit periodically.

The interest rates of payments, assets and liabilities are matched. Since there is no mismatch, there is no need for the measurement of the effect on profitability.

The Bank's short and long-term liquidity needs are met by internal and external resources.

The Bank's cash flows are generated from its own equity and the amounts remaining in members free accounts, Takasbank Money Market (TPP), Over-the-Counter Derivatives Market, Securities Lending Market (ÖPP), Renewable Energy Resource Guarantee Market (YEK-G), Natural Gas Futures Market (VGP), Natural Gas Market, BIAS Futures and Options Market (VIOP), Electricity Market, Electricity Futures Market, Cash collaterals received for reasons such as membership and pledge collaterals for BIAS Money Market and Precious Metals Market, BIAS Swap Market, Investor Compensation Center, check clearing, TEFAS, cash collaterals for other services related to public collateral management service are invested in other banks in the over-the-counter market at overnight, up to a week or three months maturity to manage liquidity risk.

The Bank manages liquidity risk by maintaining sufficient cash and cash equivalents to meet current and prospective debt obligations, to close open market positions and to provide funding for loan obligations.

The liquidity position is assessed and managed by taking into account general market and specific factors related to the Bank. The most important of these scenarios is to maintain the net liquid assets/payables to customers ratio within the limits according to market conditions.

According to the Decree of the Banking Regulation and Supervision Board dated 24 December 2015 and numbered 6613, for development and investment banks, it has been decided to apply the total and foreign currency liquidity adequacy ratios related to the first and second maturity brackets according to the first paragraph of Article 13 of the Regulation Regarding the Measurement and Evaluation of Banking Liquidity Adequacy and to continue to report to the Authority.

In accordance with the fifth paragraph of Article 4 of the Regulation on the Calculation of Liquidity Coverage Ratios of Banks, it has been decided that the consolidated and unconsolidated total and foreign currency liquidity coverage ratios for development and investment banks shall be applied as zero percent until otherwise determined by the Banking Regulation and Supervision Agency (BRSA). Within this scope, the Bank reports to the BRSA, but compliance with the legal ratio is not required.

INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)

V. Explanations On Liquidity Risk Management and Liquidity Coverage Ratio (Continued)

Net Stable Funding Ratio:

The net stable funding ratio (NSFR), which is a complementary liquidity measurement method to the LCR that measures banks' resilience to short-term liquidity shocks and is calculated by taking maturity matching into account, was legally shared as of 1 January 2024. The BRSA has set out the principles and procedures for banks to ensure stable funding in order to prevent the deterioration of their liquidity levels due to the funding risk that they may be exposed to on a consolidated and unconsolidated basis in the long term. Pursuant to the "Regulation on Banks' Calculation of Net Stable Funding Ratio" published in the Official Gazette dated 26 May 2023 and numbered 32202, the three-month simple arithmetic average of the consolidated and unconsolidated net stable funding ratio calculated monthly as of the equity calculation periods as of March, June, September and December cannot be less than 100%.

NSFR is defined as the ratio of available stable funding (STF) to required stable funding (NSF). The book values of assets and liabilities in accordance with IFRS are considered and weighted by multiplying the reporting schedules published by the BRSA by the NSFR and GRF factors. Available stable funding is capital and liabilities that provide resources to the bank for more than 1 year. Required stable funding is a function of the maturity and liquidity capacity of the bank's assets and the liquidity risk arising from off-balance sheet transactions.

Leverage ratio		
Leverage ratio (%)	5.95	6.45

⁽¹⁾ The amounts in the table are calculated by using the quarterly average amounts.

VII. Risk Management Objectives and Policies

The purpose of the risk management system is to define, measure, track, and report the risks, through policies, implementing procedures, and limitations identified to track, control, and, when necessary, change the risk-gain structure of future cash flows of the Bank and therefore the nature and level of its activities.

The purpose of the internal capital adequacy assessment process (ICAAP) is to internally determine the capital level which is adequate to compensate for the risks that the Bank is or is likely to be exposed to and to enable the Bank to continue its operations with capital above this level.

When establishing and implementing the Risk Management System and ICAAP, the proportionality principle is considered, in accordance with BRSA legislation and good practice guidelines.

The general risk policy of the Bank is to perform its activities taking manageable, controllable, and reasonable risks, which maintain the balance between income and expenses. The Bank manages its risks in such a way that they stay above and below the minimum and the maximum levels stated in the regulations published by the BRSA and below the risk appetite confirmed by the Board of Directors.

The risk capacity of the Bank is decided in accordance with its capital adequacy policy. When doing capital and liquidity planning, the current and under-stress liquidity requirements of the Bank as well as its risk appetite and capacity, are considered together.

The fund management strategy of the Bank is designed to avoid any liquidity problems, to sustain optimization of the risk-income balance, and to obtain maximum benefits from resources while taking a reasonable level of risk.

More than 4 Years	-	-	-	-
Total	1,175	832	1,175	979

6. Information on employee termination benefits and unused vacation accrual:

a) Information on employee termination benefits and unused vacation accrual:

Under Turkish Labour Law, the Bank is required to pay employment termination benefits to each employee who has qualified. Also, employees are required to be paid their retirement pay provisions who retired by gaining right to receive retirement pay provisions according to current 506 numbered Social Insurance Law's 6 June 1981 dated, 2422 numbered, 25 August 1999 dated and 4447 numbered with 60th article that has been changed. Some transition provisions related to the pre-retirement service term was excluded from the law since the related law was changed as of 23 May 2002. The provision for employment termination benefits of the Bank is calculated over the TRY64,948.77 (full TRY) (31 December 2025: TRY53,919.68) (full TRY) which is the maximum amount of employment termination benefits.

The liability is not funded, as there is no funding requirement. The provision has been calculated by estimating the present value of the future probable obligation of the Bank arising from the retirement of employees. TAS 19 requires actuarial valuation methods to be developed to estimate the enterprise's obligation under defined benefit plans. Accordingly, the following actuarial assumptions were used in the calculation of the total liability: main assumption is that the maximum liability for each year of service will increase parallel with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. Consequently, in the accompanying financial statements as of

The main assumption is that the maximum liability amount per service year will increase in line with inflation. Accordingly, the discount rate applied reflects the expected real rate after adjusting for future inflation effects. Therefore, as of 31 March 2026, the provision shown in the attached financial statements is calculated by estimating the present value of the Bank's probable future obligation arising from employees' retirements. The provisions at the balance sheet date have been calculated by using a real discount rate of approximately 4.03%, which is derived based on an assumed annual inflation rate of 6% and an interest rate of 29% (real discount rate of 4.03% as of December 31, 2025). In addition, the estimated rate of severance pay amounts that are not paid due to voluntary resignations and remain a liability of the Bank has also been considered in the calculation

	Current Period	Prior Period
Total liabilities of employee terminations (Undiscounted)	190,211	151,626
Provision for employee termination (Presented in financial statements)	85,665	77,570
The ratio of provision to undiscounted total liabilities (%)	45.04	51.16

As of 31 March 2026, the Bank's severance pay liability is TRY85,665 (31 December 2025: TRY77,570).

II. Explanations and Notes Related to Liabilities (Continued)

11. Explanations and Notes Related to Liabilities (Continued)

g) Indicators of the Bank's income, profitability and liquidity for the previous periods and possible effects of these future assumptions on the Bank's equity due to the uncertainty of these indicators:

Due to the Bank's liquid position and good relations with other banks, the Bank has the means to provide low cost financing and place it in domestic market which leads to profits. In parallel with this, if similar circumstances will occur in the future, it can be predicted that profitability will increase and this will improve the equity of the Bank with retained profits.

h) Information on marketable securities valuation reserve:

None (31 December 2025: None).

i) Information on past year profit distribution:

At the General Assembly meeting held on March 26, 2026, it was resolved that, following the approval of the Banking Regulation and Supervision Agency, a dividend payment of TRY 5,844,277 would be made to the shareholders and the remaining amount would be added to the extraordinary reserves account. Dividend payments to the shareholders will be made on June 29, 2026.

i) Information on minority shares:

None (31 December 2025: None).

III. Explanations and Notes Related to the Off-Balance Sheet Accounts

1. Information on off-balance sheet liabilities:

a) Nature and amount of irrevocable loan commitments: None (31 December 2025: None).

b) Losses and commitments related to off-balance sheet items including items listed below:

b.1) Non-cash loans including guarantees, bank acceptances, collaterals and other letters of credit: As of the balance sheet date, the details of the Bank's other non-cash loans consisting of guarantees given for Takasbank Money Market, Securities Lending Market, BIAS Equity Market, Over-the-counter derivative instruments market, BIAS Debt Securities Market, BIAS Swap Market, BIAS Money Market and BIAS Futures and Options Market transactions are shown below.

	Current Period	Prior Period
Non-cash loans given against achieving cash loans	-	-
With Original Maturity of One Year or Less	-	-
With Original Maturity of More than One Year	-	-
Other non-cash loans ^o	177,672,074	142,268,355
Total Non-Cash Loans	177,672,074	142,268,355

(*) These are the guarantees provided for Takasbank, Borsa Istanbul Futures and Options Market, Borsa Istanbul Money Market, Borsa Istanbul Swap Market, Securities Lending Market, Over-the-Counter Derivatives Market, Equity Market, and Debt Securities Market transactions.

b.2) Guarantees, temporary guarantees, collateral and other warranties: None (31 December 2025: None).

b.3) Explanation of irrevocable commitments:

**NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

EXPLANATIONS AND DISCLOSURES ON UNCONSOLIDATED FINANCIAL STATEMENTS (Continued)

III. Explanations and Notes Related to the Off-Balance Sheet Accounts (Continued)

1. Information on off-balance sheet liabilities: (Continued)

Other Irrevocable Commitments:

	Current Period		Prior Period	
	TRY	FC	TRY	FC
Capital commitment for the Futures and Options Market (as the Bank is the Central Counterparty)	809,697	-	809,697	-

Capital commitment for the Swap Market (as the Bank is the Central Counterparty)	97,711	-	97,711	-
Capital commitment for the Over-the-Counter Market (as the Bank is the Central Counterparty)	2,420	-	2,420	-
Capital commitment for the Takasbank Payment System Market	136,577	-	136,577	-
Total	1,310,800	-	1,310,800	-

d) Explanation related to Guarantees

The total valuation of the market collateral in the markets where the Bank is the Central Counterparty is TRY 374,366,602 thousand (31 December 2025: TRY365,498,026), the total of the valued guarantee fund is TRY 17,486,060 thousand (31 December 2025: TRY20,200,504 thousand).

e) Explanations Regarding Off-Balance Sheet Loans

Takasbank acts as the central counterparty for transactions in BIAS Futures and Options Market, BIAS Money Market, BIAS Swap Market, Over-the-Counter Derivatives Market, Equity Market, and Debt Securities Market, thereby guaranteeing the Bank's transactions in these markets.

For transactions in BIAS Futures and Options Market, BIAS Money Market, BIAS Swap Market, Over-the-Counter Derivatives Market, Equity Market, and Debt Securities Market, Takasbank assigns limits to members and requires continuous collateral obligations for these limits. These collaterals are held by the bank as multiples of the credit limits, which are determined based on their liquidity.

f) Information related to investment securities held in custody:

The investment securities held in custody, TRY16,407,377,431 (31 December 2025: TRY 14,610,359,680) of the TRY16,407,152,118 (31 December 2025: TRY 14,610,134,360) balance of investment securities held in custody are investment funds as the other TRY 225,313 (31 December 2025: TRY225,320) balance consists of share certificate held in custody.

FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2026**

(Amounts expressed in Thousands of Turkish Lira (TRY) unless otherwise stated.)

SECTION SEVEN

EXPLANATIONS ON INTERIM ACTIVITY REPORT

Evaluation of the Chairman of the Board of Directors for the Period

The global economy entered 2026 under the shadow of geopolitical risks and policy uncertainties. While trade tensions experienced in 2025 exerted pressure on global trade volumes, the war that erupted in the Middle East in February 2026 further heightened risks to the global economy. The disruption of passages through the Strait of Hormuz triggered a global supply shock, causing sharp fluctuations in energy prices. This situation led to an increase in inflation expectations and a deterioration in economic activity outlooks.

The International Monetary Fund (IMF) lowered its global economic growth forecast for this year from 3.3% to 3.1%, reflecting the impact of disruptions caused by the conflict in the Middle East. The Organization for Economic Co-operation and Development (OECD) maintained its global growth forecast at 2.9% for 2026, while revising down its 2027 forecast by 0.1 percentage points to 3%.

Decisions taken by the U.S. administration regarding trade policies last year influenced global markets and increased pressures on economic growth. The U.S. Federal Reserve (Fed) had started cutting interest rates in the final quarter of 2025 due to concerns over the labor market. However, given the inflationary pressures resulting from the conflicts in 2026, the Fed kept rates unchanged throughout the first quarter, maintaining the policy rate at 3.50-3.75%. Following the March meeting, Fed officials revised their growth and inflation projections upwards for 2026 and 2027.

Amid global uncertainty, energy-related pressures resurfaced prominently in the Eurozone. Annual inflation in the Eurozone rose to 2.6% in March, surpassing the European Central Bank's (ECB) 2% target, driven by sharp increases in energy prices. During this period, the ECB kept its reference interest rates unchanged. ECB President Lagarde emphasized that the bank stands ready to use all available instruments to stabilize inflation around the 2% target in the medium term. Meanwhile, due to high inflation and slowing momentum, the IMF lowered its 2026 growth forecast for the Eurozone from 1.4% to 1.1%.

Despite the global repercussions of the Middle East war, the Chinese economy gained momentum in the first quarter of the year through strong export growth balancing weak domestic demand. The economy grew by 5% in Q1 2026.

Sharp fluctuations were observed in commodity and precious metal prices during the first quarter, while the latest World Bank report projected a 16% increase in global commodity prices in 2026.

Maintaining its inflation-targeting approach in 2026, the Central Bank of the Republic of Turkey (CBRT) paused its interest rate cut cycle, which had commenced last year amid emerging global risks. At its March meeting, the Central Bank left the policy rate unchanged at 37%, increasing funding costs to 40%. Inflation in March rose by 1.94% month-on-month and 30.87% year-on-year, below expectations. Moving forward, the impacts of rising cost pressures driven by escalating tensions in the Middle East on inflation and the current account balance will be closely monitored.

Takasbank effectively continued to provide its services to Türkiye's money and capital markets in the first quarter of 2026 and carried out efficient risk and collateral management in the markets where it operates as a central counterparty, in alignment with international best practices.

Our projects and initiatives aimed at developing and diversifying the services offered to the markets— particularly central counterparty services are carried out in line with sector demands and the specific needs of our country. During this period, efforts to strengthen our technological infrastructure continued in order to manage IT-related operational risks and to ensure that Takasbank services are delivered in a fast, effective, and uninterrupted manner.

EXPLANATIONS ON INTERIM ACTIVITY REPORT

Evaluation of the Chairman of the Board of Directors for the Period (Continued)

As of 5 January 2026, a newly implemented project has enabled the transmission of letters of guarantee and surety bonds related to additional final, advance, final account, and provisional acceptance deficiencies arranged during the contract process of tenders conducted under the Public Procurement Law through our Bank. Consequently, the scope of the Public Collateral Management Platform has been further expanded.

With its strategic perspective and effective management policies, our Bank achieved a pre-tax profit of TRY5 billion as of 31 March 2026, while its total assets reached TRY378,2 billion and its equity increased to TRY24,9 billion. Thanks to our preparedness against risks and our technical competence, business continuity will be maintained in the upcoming period, and new products and services will continue to be developed in harmony with our Group companies.

On behalf of myself and our Board of Directors, I would like to extend my sincere thanks to all our stakeholders, especially our employees and managers, who have contributed to the successful performance of our Bank.

Best regards,

Dr. Mahmut KAYACIK
Chairman of the Board of Directors

EXPLANATIONS ON INTERIM ACTIVITY REPORT (Continued)

Evaluation of the CEO for the Period

Takasbank continued to contribute to the development of the Turkish capital markets and delivered a successful performance in the first three months of 2026.

In the first three months of 2026, due to the increase in market transaction volumes and the expansion of Takasbank's service profile, our fee and commission income rose significantly compared to the same period of the previous year, reaching TRY3 billion, while our pre-tax profit amounted to TRY5 billion. As of 31 March 2026, Takasbank's total assets reached TRY378,2 billion, its equity amounted to TRY24,9 billion, and the total size of cash collateral stood at TRY290,3 billion.

As of 31 March 2026, a total transaction volume of TRY81,2 billion was realized in the Borsa Istanbul (BIAS) Debt Securities Market Outright Purchases and Sales Market and the Repo-Reverse Repo Market, including TRY90 trillion in private sector bond transactions. Regarding the transactions executed in these markets, Takasbank carried out multilateral netting operations resulting in TRY32,9 trillion in cash settlement and TRY66,6 trillion in securities settlement based on market value. In the BIAS Swap Market, a total bilateral transaction volume of TRY6,7 trillion was realized, of which TRY152,2 billion was in USD and TRY9,5 billion in EUR.

In the BIAS Equity Market, a total transaction volume of TRY16,5 trillion was realized, along with TRY690,8 billion in cash settlement and TRY2,7 trillion in securities settlement transactions.

As of 31 March 2026, the number of open positions in the Futures and Options Market was 24 million, while the total value of open positions amounted to TRY361,3 billion. In the OTC Market, the open position value for the three-month period was recorded as TRY91,6 billion.

In the three-month period, the transaction volume in the Takasbank Money Market reached TRY4 trillion, with a total of 96,563 transactions. The average daily transaction volume was TRY66,1 billion, while the average transaction size amounted to TRY42,4 million.

On the Turkey Electronic Fund Trading Platform (TEFAS), the transaction volume reached TRY5,2 trillion in the three-month period, with 991 funds traded. The average daily transaction volume was TRY84,5 billion, while the number of participating institutions was 127.

On the Individual Pension Fund Trading Platform (BEFAS), the transaction volume reached TRY39,5 billion in the three-month period, with 301 funds traded. The average daily transaction volume was TRY636,9 million, while the number of participating institutions was 15.

Regarding individual pension fund services, as of 31 March 2026, the total fund asset value of 395 individual pension investment funds amounted to TRY2,3 trillion. In the same period, the total fund asset value of 2,237 investment funds reached TRY7,7 trillion; 319 real estate investment funds had a combined asset value of TRY212,9 billion; 555 venture capital investment funds amounted to TRY449,9 billion; 31 exchange-traded funds reached TRY351,5 billion; and 10 securities investment trusts had a total net asset value of TRY2,3 billion.

Within the scope of the cash loan service offered by Takasbank to intermediary institutions, an average of TRY4,9 billion in cash loans was provided daily.

In the first three months of 2026, Takasbank continued its development efforts to deepen the markets and manage financial risks, along with initiatives to strengthen its IT infrastructure, within the framework of its vision of "contributing to the development of markets through reliable and effective post-trade services."

I would like to thank all those who contributed to the success of our Bank, which maintained its services in an effective and uninterrupted manner and delivered a strong financial performance during this period especially our employees.

Best regards

Dr. Yunus ARINCI
General Manager
Board Member
