## **REVIEW REPORT ON INTERIM FINANCIAL INFORMATION**

To the Board of Directors of İstanbul Takas ve Saklama Bankası A.Ş.:

### *Introduction*

We have reviewed the unconsolidated balance sheet of İstanbul Takas ve Saklama Bankası A.Ş. (the "Bank") as at 30 June 2019 and the unconsolidated statement of profit or loss, unconsolidated statement of profit or loss and other comprehensive income, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows for the six month period then ended, and notes, comprising significant accounting policies and other explanatory information. The Bank management is responsible for the preparation and fair presentation of these unconsolidated interim financial information in accordance with the Banking Regulation and Supervision Agency Accounting and Reporting Legislation which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette No. 26333 dated 1 November 2006, and other regulations on accounting records of banks published by Banking Regulation and Supervision Agency ("BRSA") and circulars and interpretations published by BRSA and the requirements of Turkish Accounting Standard 34 "Interim Financial Reporting" for the matters not regulated by the aforementioned regulations (together referred as "BRSA Accounting and Financial Reporting Legislation"). Our responsibility is to express a conclusion on these unconsolidated interim financial information based on our review.

### *Scope of review*

We conducted our review in accordance with the Standard on Review Engagements ("SRE") 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an opinion.

### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial informations do not present fairly the financial position of Bank as at 30 June 2019 and its financial performance and of the results of its operations and its cash flows for the six-month period then ended in all aspects in accordance with the BRSA Accounting and Financial Reporting Legislation.

### *Report on other regulatory requirements arising from legislation*

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section VII, are not consistent with the reviewed unconsolidated interim financial statements and disclosures in all material respects.

### **Additional paragraph for convenience translation to English:**

The accounting principles summarized in Note 3.1, differ from the accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS"). Accordingly, the accompanying financial statements are not intended to present the financial position and results of operations in accordance with accounting principles generally accepted in such countries of users of the unconsolidated financial statements and IFRS.

**CONVENIENCE TRANSLATION OF PUBLICLY ANNOUNCED  
UNCONSOLIDATED FINANCIAL STATEMENTS  
İSTANBUL TAKAS VE SAKLAMA BANKASI A.Ş.  
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS  
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2019**

**SECTION ONE**

**GENERAL INFORMATION**

**I. Bank's establishment date, start-up statute, history about the changes in this mentioned statute:**

The Bank was originally set up as a department of the Borsa İstanbul A.Ş. ("BİAŞ") (formerly "İstanbul Menkul Kıymetler Borsası") and reorganized under a separate company named İMKB Takas ve Saklama A.Ş. (ISE Settlement and Custody Company Inc.) on 12 July 1991, was transformed into a non-deposit taking bank on 8 August 1995 with the name İMKB Takas ve Saklama Bankası A.Ş. (ISE Settlement and Custody Bank Inc.), as published in the Official Gazette dated 23 March 1995 with the decision of the Council of Ministers No. 95/6551. According to the decision made in 18th Ordinary Meeting of the Bank General Assembly dated 29 March 2013, title of the Bank has been changed into Istanbul Takas ve Saklama Bankası A.Ş. (Here in after referred to as "Takasbank" or the "Bank") and this title change was approved in 11 April 2013. The name of the Bank has been renovated as "Takasbank" or "Takas İstanbul" with the resolution of the ordinary general meeting dated 9 June 2017 and numbered 22.

**II. Explanation about the Bank's capital structure, shareholders who directly or indirectly, solely or jointly undertake the management and control of the Bank, any changes in the period, and information on the Bank's risk group:**

As of 30 June 2019 and 31 December 2018, the shareholders' structure and their respective ownerships are summarized as follows:

No	Name of Shareholders	Current Period			Prior Period		
		Paid in Capital	(%)	Number	Paid in Capital	(%)	Number
1	Borsa İstanbul A.Ş.	384,887	64.15	1	384,869	64.14	1
2	Türkiye Garanti Bankası A.Ş.	29,685	4.95	1	29,685	4.95	1
3	Tacirler Menkul Değerler A.Ş.	29,516	4.92	1	29,016	4.84	1
4	Phillip Capital Menkul Değerler A.Ş.	28,423	4.74	1	27,923	4.65	1
5	Yapı Kredi Yatırım Menkul Değerler A.Ş.	26,280	4.38	1	26,280	4.38	1
6	Türkiye İş Bankası A.Ş.	26,235	4.37	1	26,235	4.37	1
7	Türkiye Vakıflar Bankası T.A.O.	26,235	4.37	1	26,235	4.37	1
8	Other (Brokerage House)	28,638	4.77	25	29,656	4.95	26
9	Other (Bank)	20,101	3.35	8	20,101	3.35	8
<b>Total</b>		<b>600,000</b>	<b>100.00</b>	<b>40</b>	<b>600,000</b>	<b>100.00</b>	<b>41</b>

64.15% of the Bank's share belongs to BİAŞ. BİAŞ was established on the date of the entry into force of the Law to carry out stock market activities in accordance with Article 138 of the Capital Markets Law No. 6362, which was published in the Official Gazette on 30 December 2012 and entered into force. BİAŞ shall ensure that capital market instruments, foreign exchange and precious metals and precious stones and other contracts, documents and valuables deemed appropriate by the Capital Markets Board can be bought and sold in a transparent, effective, competitive, honest and stable environment easily and safely under the conditions of free competition markets, platforms and systems and other organized market places to facilitate the gathering of these orders and to determine and announce the prices that are formed and to establish and establish and maintain these and other stock exchanges or other market places is an institution with private legal entity established on the basis of the Capital Markets Law No. 6362 to manage and/or operate the markets of the stock exchanges.

*Dividend payment:*

The General Assembly meeting was held on 19 April 2019. The Bank has decided to pay a dividend of TL 75,000 to shareholders. The dividend payments were made on 2 May 2019.

**GENERAL INFORMATION (Continued)**

**IV. Information on the Bank's qualified shareholders:**

Shareholding in the Bank's shares, except BİAŞ, does not exceed 5% as stated in the Articles of Association of the Bank. 64.15% of the Bank belongs to BİAŞ. The Bank has nominal TL 200 preferred shares as of 30 June 2019 (31 December 2018: TL 200) (full TL). The preferred shares belonging to BİAŞ grants to shareholders the right to nominate four candidates to be elected to the Board of Directors by the General Assembly.

<b>Name Surname/Business Name</b>	<b>Share Amount</b>	<b>Share Proportions</b>	<b>Paid-in Shares</b>	<b>Unpaid Shares</b>
BİAŞ	384,887	64.15%	384,887	-

**V. Information on the Bank's function and areas of activity:**

The main purpose of the Bank is to increase our country's market competitiveness by providing settlement and custody services, providing financial services, and performing all types of economic activities within the scope of the relevant legislation.

The areas of activity that are specified in the Bank's Articles of Association, in general, are as follows:

- Providing all financial services, and primarily central bartering services and central counterparty services, activity of settlement and custody, market management, establishing and making payments, transfer and reconciliation systems, and banking activities;
- Financial services related to international markets including all kinds of payments, transfers, settlements, custody, and reconciliation services;
- Performing judiciary activities and signing all agreements related to its subject, signing written contracts, notes, and miscellaneous notes, acquiring all kinds of rights and receivables and binding debts;
- Purchasing, manufacturing, constructing, acquiring in other ways, renting, partially or completely, selling when necessary, transferring and leasing, and establishing all kinds of real rights on moveable and immoveable goods or removing all kinds of moveable and immoveable goods as well as all kinds of rights associated with them;
- All kinds of loaning and borrowing required by its activities, in line with corporate management principles as determined by banking and capital market legislation, as well as providing and obtaining personal in cash or in kind guarantees such as sureties, pledges, mortgages, and enterprise pledges in its favour or in favour of others, and transferring or cancelling these;
- Exporting all types of capital market instruments within the framework of Capital Markets legislation;
- Establish partnerships with domestic and foreign organizations and join existing partnerships.

**VI. A short explanation of the differences between the "Communiqué on Preparation Of Consolidated Financial Statements Of Banks" and consolidation transactions made in line with Turkish Accounting Standards, and on establishments that are subjected to full or proportional consolidation, deducted from equity or establishments that are not subjected to these three methods:**

None.

**VII. Current or likely actual or legal barriers to immediate transfer of equity or repayment of debts between parent bank and its subsidiaries:**

None.

**SECTION THREE**

**EXPLANATIONS ON ACCOUNTING POLICIES**

**I. Basis of Presentation**

*Presentation of financial statements*

The Bank prepares its financial statements in accordance with the BRSA Accounting and Reporting Regulation” which includes the regulation on “The Procedures and Principles Regarding Banks’ Accounting Practices and Maintaining Documents” published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Financial Reporting Standards (“TFRS”) published by the Public Oversight Accounting and Auditing Standards Authority for the matters not regulated by the aforementioned legislations.

The format and content of the publicly announced unconsolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements”, published in Official Gazette no. 28337, dated 28 June 2012, and “Communiqué Pertaining to Public Disclosure of Risk Management in Banks” amendments to these Communiqués. The Bank maintains its books in Turkish Lira in accordance with the Banking Law, Turkish Commercial Code and Turkish Tax Legislation.

The preparation of financial statements in conformity with TAS requires the use of certain critical accounting estimates by the Bank management to exercise its judgment on the assets and liabilities of the balance sheet and contingent issues as of the balance sheet date. These estimates are being reviewed regularly and, when necessary, suitable corrections are made and the effects of these corrections are reflected to the income statement.

Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.

In accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements”, published in the Official Gazette No. 30673, dated 1 February 2019, prior period financial statements are aligned with latest financial statement format.

The Bank has started to apply TFRS 16 Leases standard (“TFRS 16”) in the accompanying consolidated financial statements starting from 1 January 2019.

*The accounting policies and valuation principles applied in the preparation of these financial statements and valuation principles*

The differences between accounting principles, as described in these preceding paragraphs and accounting principles generally accepted in countries in which financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in these financial statements.

**II. Explanations on Usage Strategy of Financial Assets and Foreign Currency Transactions**

The Bank places its funds in domestic and foreign banks, in interbank money markets, and treasury bills and government bonds. These instruments are assumed to have higher yields compared to other financial instruments and bear lower risk. For the purposes of maintaining sufficient liquidity to meet all claims that might fall due, the Bank makes overnight or weekly placements in money markets. The most significant financing resources are guarantees of the members, short term placements and the shareholders’ equity of the Bank. In making long-term placements, the high yield principle is considered, and accordingly, the Bank invests in government bonds and treasury bills.

The Bank has not any area of operations for which a return is achieved above the average rate of return.

The Bank carries transactions in securities and money markets. Accordingly, exchange rate and interest rate volatility are managed by matching its assets and liabilities. The Bank does not engage in derivative or structured products defined as off-balance sheet to provide balance sheet management or to make profit. Related to the transactions in securities and money markets, transaction limits are established as risk limits.

FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2019**

---

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**II. Explanations on Usage Strategy of Financial Assets and Foreign Currency Transactions (Continued)**

The Bank does not have any transactions that cause liability or affect the net asset position negatively in other foreign currency transactions.

**III. Explanations on Investments in Associates, Subsidiaries and Joint Ventures**

Investments in associates and subsidiaries are accounted in accordance with the “Turkish Accounting Standard on Consolidated and Separate Financial Statements Standard” (“TAS 27”) and non-financial associates, subsidiaries are stated with their cost values at the financial statements after the provision for impairment deducted.

**IV. Explanations on Forward and Option Contracts and Derivative Instruments**

The Bank's major derivative instruments consists of swap transactions for hedging purposes. The Bank has no derivative financial instruments designated as hedging instruments or embedded derivative financial instruments.

Liabilities and receivables arising from the derivative instruments are followed in the off-balance sheet accounts at their contractual values.

Derivative instruments are remeasured at fair value after initial recognition. In accordance with the classification of the derivative instrument, if the fair value of a derivative financial instrument is positive, it is recorded to the account “Derivative Financial Assets Measured at Fair Value Through Profit and Loss” or “Derivative Financial Assets Measured at Fair Value Through Other Comprehensive Income”; if the fair value difference is negative, it is disclosed in “Derivative Financial Liabilities Measured at Fair Value Through Profit and Loss” or “Derivative Financial Liabilities Measured at Fair Value Through Other Comprehensive Income”. Differences in the fair value of trading derivative instruments are accounted as income/loss from derivative financial transactions under “trading income/loss” item in the income statement.

**Explanations on derivative instruments for hedging purpose**

The Bank performs cross currency swap transactions in order to avoid changes in the fair value of fixed-rate financial instruments.

**V. Explanations on Interest Income and Expenses**

Interest is recorded according to the effective interest rate method (rate equal to the rate in calculation of present value of future cash flows of financial assets or liabilities) defined in the TFRS 9 “Financial Instruments” standard by applying the effective interest rate to the gross carrying amount of a financial asset except for: purchased or originated credit-impaired financial assets or financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets.

**VI. Explanations on Fees and Commission Income and Expenses**

The Bank performs custody and settlement services for marketable securities, precious metals and other securities arising from purchases and sales of those assets.

Additionally, the Bank opens custody accounts for its customers, corporate investors and companies quoted on the BİST and on other stock exchange markets, performs transfers, settlements and offsets between the accounts of securities intermediary companies and investors; performs procedures related to obtaining of bonus shares, use of preemptive rights, timely collection of dividends, principal and interest, exchange of certificates representing marketable and other securities and additional financial services. On these operations, the Bank receives custody and service commission income from its customers. These fees and commissions are accrued on a monthly basis under other operating income.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS  
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2019**

---

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**VII. Explanations and Disclosures on Financial Assets**

The Bank recognizes its financial assets as “Fair Value Through Profit or Loss”, “Fair Value Through Other Comprehensive Income” or “Measured at Amortized Cost”. Such financial assets are recognized or derecognized according to TFRS 9 Financial Instruments. The Bank recognizes a financial asset or financial liability on its balance sheet only when it is party to the contractual provisions of the financial lease. The Bank derecognizes a financial asset only when the contractual rights to cash flows from the financial asset have expired or the financial assets have been transferred and the conditions for derecognition have been met. A financial liability (or part of a financial liability) is only recognized when the liability has expired; in other words, it is removed from the statement of financial position when the obligation specified in the contract is fulfilled, canceled or time out.

The Bank categorizes its financial assets as “Fair Value Through Profit/Loss”, “Fair Value Through Other Comprehensive Income” or “Measured at Amortized Cost” based on the matters below:

- The business model used by the entity for the management of financial assets,
- Properties of contractual cash flows of a financial asset.

When the business model determined by the Bank management is changed, all financial assets affected by this change are reclassified. Reclassification of financial assets is applied prospectively from the date of reclassification. In such cases, there no adjustment to earnings, losses (including impairment gain or loss) or interest received previously in the financial statements is made.

**a. Financial assets at fair value through profit or loss**

Financial assets at fair value through profit/loss are financial assets that are either acquired for generating a profit from short term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making.

Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement.

**b. Financial assets at fair value through other comprehensive income**

Financial assets are classified as fair value through other comprehensive income if the assets are being held in line with a business model that aims collection of contractual cash flows or sale of assets and additionally if the contractual terms of the financial asset lead to cash flows that solely include the payments of principal and interest on certain dates.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement. “Unrealized gains and losses” arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the “Accumulated other comprehensive income or expense to be reclassified through profit or loss” under shareholders’ equity. When these securities are collected or disposed of, the accumulated fair value differences reflected in the equity are reflected to the income statement.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS  
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2019**

---

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**VII. Explanations and Disclosures on Financial Assets (Continued)**

**c. Financial Assets Measured at Amortised Cost**

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in income statement.

**d. Loans**

Loans are financial assets which have fixed payment terms and are not traded in an active market.

The Bank provides cash loans to the brokerage houses at maximum one month maturity however mostly overnight maturity in order to provide efficiency and convenience in capital market transactions within the limits determined by the Board of Directors. Cash loans are classified under the heading “financial assets measured at amortized cost” in the context of “being held for the purpose of obtaining contractual cash flows” and “contractual cash flows representing interest only on principal and principal balance” criteria.

Loans recognized at cost and are valued at amortized cost using the effective interest method.

*Explanations on the Impairment of Financial Assets Recognition of Financial Statements of Expected Credit Losses*

In accordance with the “Regulation on Procedures and Principles for the Classification of Loans and Provisions to be Issued” published in the Official Gazette dated 22 June 2016 and numbered 29750, the Bank calculates the expected credit loss provision in accordance with TFRS 9 and indicates in its financial statements. Expected credit losses related to cash and cash equivalents under financial assets, other receivables, loans and non-cash loans are calculated and accounted.

Provisions provided by the Bank under TFRS 9; the expected credit loss provision amounts for 12 months and the expected credit loss provision amounts due to a significant increase in the credit risk of the borrower and the expected lifetime credit loss provisions for the default of the debts are considered as special provisions.

For non-impaired financial assets, the expected credit loss provision for twelve months is calculated and set aside for the initial recognition stage. For these financial assets, effective interest rate is used over the gross book value.

Although not available for the reporting period, the expected lifetime credit loss is calculated and set aside for non-impaired financial assets that have significant increase in credit risk after initial recognition. For these financial assets, effective interest rate is used over the gross book value.

The expected lifetime credit loss provision is calculated and set aside for financial assets that are purchased or created with impaired loans. For these financial assets, effective interest rate is applied through net book value.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS  
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2019**

---

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**VII. Explanations and Disclosures on Financial Assets (Continued)**

*Explanations on the Impairment of Financial Assets to be Taken to Financial Tables of Expected Credit Losses (Continued)*

The definition of default is included in the Communiqué on the calculation of the credit risk amount based on the internal rating approach. It is assumed that the debtor defaults in the event that the debtor is unable to fully pay the debts to the Bank without applying for collateral or if the debtor has delayed more than 90 days to fulfill his significant liabilities to the Bank.

Expected credit losses for financial assets, other receivables and loans under the title Cash and cash equivalents are recognized under “Expected loss reserves (-)” on the asset side of the balance sheet. The total provision for credit losses under TFRS 9 is classified under “12 Months Expected Loss Equivalent- (First Stage)”. There is no allowance for credit losses classified under “Significant Increase in Credit Risk (Second Stage)”.

The expected credit loss provisions calculated for the transactions classified as non-cash loans due to the market where the Bank is the Central Opposite Party and the guarantor are listed under the “Other Provisions” heading on the liabilities of the balance sheet.

The basic principles for calculating the Bank “Expected credit loss provisions” are as follows:

- Information considered in the expected credit loss accounting should be reasonable, reliable and supportable.
- Country risk is also taken into account when calculating provisions for expected credit losses.
- Provision for loans can be higher than their loan-based counterparts, taking into account the size, type, currency, interest rate structure, borrowing sector, collaterals and similar concentrations over time, credit risk level and management.
- The approach used to assess expected credit losses is consistent with the bank’s credit risk management.
- The information used should include the borrower-specific factors, the general economic conditions and the assessment of the effects of these factors and circumstances at the reporting date on the current and future periods. Potential sources of information include the Bank’s credit disposal experience, internal or external credit ratings, reports and statistics.
- If the financial instrument is determined to have low credit risk at the reporting date, the Bank may assume that the credit risk in the financial instrument has not increased substantially since the first time it was recognized.

**VIII. Explanations on Impairment of Financial Assets**

At each balance sheet date, the Bank assesses whether there is objective evidence that a financial asset or a group of financial assets has suffered an impairment and whether it meets the classification requirements in accordance with TFRS 9. The Bank determines the amount of the impairment if such indicator exist as mentioned. Related accounting policy is explained in footnote VII.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**IX. Explanations on Offsetting of Financial Assets and Liabilities**

Financial assets and liabilities are offset when the Bank has a legally enforceable right to set off, and when the Bank has the intention of collecting or paying the net amount of related assets and liabilities or when the Bank has the right to offset the assets and liabilities simultaneously. Otherwise, no offsetting is made with respect to financial assets and liabilities.

**X. Explanations on Sales and Repurchase Agreements and Lending of Securities**

Repurchase agreements are classified as their purposes on the securities portfolio and evaluated by the principals of the portfolio which they belong to. The Bank has no repurchase transaction as of the balance sheet date.

Receivables from reverse repurchase agreements are accounted for under "Receivables from Reverse Repurchase Agreements" account in the balance sheet. The difference between purchase and sale price determined by these agreements is accrued over the life of agreements according to effective interest rate method.

**XI. Explanations on Assets Held for Sale and Discontinued Operations**

Assets which satisfy to be classified as held for sale are measured by the lower of carrying value and fair value less costs to sell and these assets are not amortized; and are separately presented in the financial statements. For an asset (or else the group of assets) to be classified as held for sale; the asset should be ready for immediate sale in frequently seen and accustomed terms and the probability of sale should be high. For the probability of sale to be high, appropriate level of management should have made a plan for the sale of the asset (or else the group of assets) and a program should have been initiated in order to determine buyers as well as complete the plan. Also the asset (or else the group of assets) shall be actively marketed in conformity with its fair value. On the other hand, the sale is expected to be journalized as a completed sale within one year after the classification date; and the necessary transactions and procedures to complete the plan should demonstrate the fact that the possibility of making significant changes or cancelling the plan is low. Certain events and conditions may extend the duration of completion of sale to more than one year.

If such delay arises from any events and conditions beyond the control of the entity and if there is sufficient evidence that the entity has an ongoing disposal plan for these assets, such assets (or else group of assets) are continued to be classified as assets held for sale (or else group of assets). A discontinued operation is a division of a bank that is either disposed or held for sale. Results of discontinued operations are included in the income statement separately.

A discontinued operation is a part of a bank classified as held for sale or held for sale. The results of discontinued operations are presented separately in statement of profit or loss.

The Bank has no assets held for sale as of the balance sheet date. The Bank has no discontinued operations during the period.

**XII. Explanations on Goodwill and Other Intangible Assets**

As of the balance sheet date, there is no goodwill in the accompanying un-consolidated financial statements of the Bank.

The intangible assets which have been bought before 1 January 2005 are amortized based on historical cost which has been revised according to inflation effects dated 31 December 2004 and the items which have been bought in the following dates are amortized based on purchase cost with the allocation of accumulated depreciation and impairments. The intangible assets are amortized based on straight line amortization regarding useful life periods. The amortization method and period are revised periodically every year.

Intangible assets of the Bank are basically software license costs. Useful lives of other intangible assets are determined by the consideration of items as; useful life of asset, maintenance costs incurred to obtain expected economic benefit from assets and technical, technological or any other type of obsolescence. Amortization method used in the current period is not subject to any change. Depreciation period is 5 years (20% annual depreciation rate) for establishment/formation expenses for other intangible assets with uncertain leasing period or leasing period over five years and depreciation rate is proportional with period for those with certain leasing period. Economic useful lives determined are in accordance with the criteria stated in the Turkish Accounting Standards-TAS 38-Intangible Assets. Computer programs widely used in the Bank are generated within the Bank by the personnel of the Bank and the expenses related to those assets are not capitalized. Computer software is only purchased in case of urgent need and special projects.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XII. Explanations on Goodwill and Other Intangible Assets (Continued)**

Within the scope of the agreement made between Borsa İstanbul and NASDAQ, new BISTECH technology, which was developed under Borsa İstanbul's processing system; data distribution; index calculation; market surveillance; reporting systems; and also the Bank's swap and risk management systems, has a useful life of 20 years.

**XIII. Explanations on Tangible Assets**

Tangible fixed assets are initially recognized at acquisition cost and any other cost incurred so as to get the fixed asset ready for use.

Tangible fixed assets are depreciated with straight-line method. Tangible fixed assets are depreciated with the rates determined by the Ministry of Finance based on useful lives. These useful lives are in line with the criteria stated in "TAS 16 - Tangible Assets" released by Turkish Accounting Standards Board. Depreciation Rates for Tangible Fixed Assets are as following:

	<b>Estimated Useful Life (Year)</b>	<b>Depreciation Rate</b>
Buildings	50	2%
Furniture, Fixture and Office Equipment	4 - 15	6,67-25%
Other Tangible Fixed Assets	2 - 16	6,67-50%

Tangible fixed assets are accounted for at cost less accumulated depreciation and impairment, if any.

Gain or loss resulting from disposals of the tangible fixed assets is reflected to the income statement as the difference between the net proceeds and net book value.

Maintenance costs of tangible fixed assets are capitalized if they extend the economic useful life of related assets. Other maintenance costs are expensed. There are no pledges, mortgages or other restrictions on the tangible fixed assets.

**XIV. Explanations on Leasing Transactions**

The Bank measures the operational lease liabilities based on the present value of the lease payments that have not been paid at the date lease is actually started, in accordance with TFRS 16. Lease payments are discounted by using the Bank's alternative incremental borrowing rate.

After the date lease actually started, the Bank increases book value to reflect the interest on lease liability, decreases book value to reflect lease payments that is made and remeasures to reflect the changes made in lease or revised fixed lease payments.

The interest on the lease liability for each period of the lease term, is the amount calculated by charging a fixed periodic interest rate on remaining balance of lease liability.

After the date lease actually started, net book value of lease liability is increased by reflecting the interest on lease liability, decreased by reflecting lease payments that is made and remeasures to reflect the changes made in lease or revised fixed lease payments.

The Bank applies a discount rate that reflects the changes in the interest rate in a scenario where the Bank used purchase option at the initial lease term.

The Bank remeasures the lease liability by discounting the revised lease payments using a revised discount rate for a lease modification that is not accounted for as a separate lease, at the effective date of the lease modification. The revised discount rate is determined as the alternative borrowing interest rate at the effective date of the modification. The Bank decreases carrying amount of the right-of-use asset to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease. Any gain or loss relating to the partial or full termination of the lease is recognized in profit or loss. A corresponding adjustment to the right-of-use asset is made for all other lease modifications.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XV. Explanations on Provisions and Contingent Liabilities**

Provisions and contingent liabilities are accounted in accordance with “Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets” (“TAS 37”).

Provisions on financial statements, if an existing obligation resulting from past events, it is probable that the obligation will be met and the obligation can be reliably measured. Provisions are calculated based on the Bank management’s best estimate of the expenditure required to settle the obligation at the balance sheet date and are discounted to the fair value where the effect is material.

**XVI. Explanations on Liabilities Regarding Employee Benefits**

Obligations related to employment termination and vacation rights “Turkey Accounting Standards Regarding Employee Benefits” (“TAS 19”) are accounted for in accordance with the provisions.

**Defined Benefit Plans**

In accordance with existing social legislation in Turkey, the Bank is required to make lump-sum termination indemnities over a 30 day salary to each employee who has completed over one year of service, whose employment is terminated due to retirement or for reasons other than resignation or misconduct, and due to marriage, female employees terminating their employments within a year as of the date of marriage, or male employees terminating their employments due to their military service. The Bank is also required to make a payment for the period of notice calculated over each service year of the employee whose employment is terminated for reasons other than resignation or misconduct. Total benefit is calculated in accordance with TAS No: 19 “Turkish Accounting Standard on Employee Benefits”.

Such benefit plans are unfunded since there is no funding requirement in Turkey. The cost of providing benefits to the employees for the services rendered by them under the defined benefit plan is determined by independent actuaries annually using the projected unit credit method.

In calculating the related liability to be recorded in the financial statements for these defined benefit plans, the Bank uses independent actuaries and also makes assumptions and estimation relating to the discount rate to be used, turnover of employees, future change in salaries/limits, etc. These estimations are audited annually. The carrying value of provision for employee termination benefits as of 30 June 2019 is TL 6,688 (31 December 2018: TL 5,640).

Communiqué on “Turkish Accounting Standard (TAS 19) about Benefits for Employee (No: 9)” published in Official Gazette by Public Oversight Accounting and Auditing Standards Authority (POA) on 12 March 2013 numbered 28585, was entered into force for the account periods starting after 31 December 2013 on accounting treatment of actuarial profit and loss resulting from changes in actuarial assumptions or differences between actual and actuarial assumptions. For the period of 1 January – 30 June 2019, actuarial loss after deferred tax effect amounting to TL 1,905 (31 December 2018: TL 103 actuarial loss) was classified as “Other Capital Reserves”.

**XVII. Explanations on Taxation**

Income tax expense represents the sum of the current tax payable and deferred tax.

The current tax payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Bank’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit at enacted tax rates, and it is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax liabilities are recognized for all taxable temporary differences, whereas deferred tax assets resulting from deductible temporary differences are recognized as taxable profit.

UNCONSOLIDATED FINANCIAL STATEMENTS  
ISTANBUL TAKAS VE SAKLAMA BANKASI A.Ş.  
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS  
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2019**

---

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XVII. Explanations on Taxation (Continued)**

The carrying amount of a deferred tax asset shall be reviewed at the end of the reporting period. The carrying amount of a deferred tax asset is reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized.

Deferred tax assets and liabilities shall be measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled is recognized in income statement as income or expense. Deferred tax that relates to items that are recognized directly in equity, in the same or a different period, is recognized directly in equity. Deferred tax assets and liabilities are netted off.

The current taxes payable and advance taxes are offset since they relate to each other.

The Bank has adjusted its statutory financial statements with inflation accounting as of 1 January 2004 in accordance with Law No. 298.

Some modifications have been made in the tax legislation with Law 4842 published in the Official Gazette number 25088 on 24 April 2003. Under these modifications, investment and development banks, which are not allowed to accept deposit, are allowed to deduct loan loss provisions from the tax base in accordance with item 2 of the article 20 of Banking Law and the amendment introduced by the article 35 of the Law numbered 4842.

*Current Tax*

The corporate tax rate of 20% implementation on the Corporate Tax Law No. 5520 was taken into effect on 1 January 2006 after being published in the Official Gazette dated 21 June 2006 numbered 26205 , will be applied as 22% for corporation earnings for three years from 1 January 2018 with the regulation dated 28 November 2017 numbered 7061. Furthermore, council of ministers has the authority to decrease this ratio to 20% from 22%. The Bank applies new regulations to its current and deferred tax responsibilities. The corporate tax rate is calculated on the total income of the Bank after adjusting for certain disallowable expenses, exempt income (like affiliate gains) and other allowances. If there is no dividend distribution, no further tax charges are made.

Dividends paid to non-resident corporations, which have a place of business or permanent attorney in Turkey or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and no withholding tax incurs in such a case.

Corporations are required to pay advance corporate tax quarterly at a rate of 22% on their corporate income. Advance tax is declared by the 14th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations for the current period is credited against the annual corporation tax calculated on the annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

According to 5.1.e. article of Corporation Tax Law which is important tax exemption that is applied by banks, corporations' 50% of revenues that occur from selling of their real estates, are in assets, that belong to the corporations at least two years (730 days), 75% of revenues that occur from selling their founding bonds that are belong to the corporations as long as time of participation stocks, redeemed shares and option to call are exempted from Corporation Tax. (It was changed with 89th article of code 7061 that entries into force in 5 December 2017. According to dated 23 December 2017 3rd article of Corporation Tax Code (CTC) 14 annunciation this exemption will apply as ratio of 75% for selling that made till the 5 December 2017, after this date it will apply as ratio of 50%).

This exemption applies to the period the sale is made and the part of return on sales that benefits from the exemption is held in a special fund in the liabilities account until the end of the fifth year started from the following year sale is made. However, the sales payment must be collected until the end of the second calendar year following the year in which the sale is made. Taxes which are not realized in time due to the exemption that hits uncollected sales payment are considered tax loss.

**CONVENIENCE TRANSLATION OF PUBLICLY ANNOUNCED  
UNCONSOLIDATED FINANCIAL STATEMENTS  
ISTANBUL TAKAS VE SAKLAMA BANKASI A.Ş.  
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS  
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2019**

---

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XVII. Explanations on Taxation (Continued)**

Taxes which were not accrued on time because of the applying exemption for the transfer of the exempted part of revenue to the other accounts with other ways out of capitalizing in five years or withdrawn from company or transferring from limited taxpayer corporations to the headquarters, are considered as tax loss. This is also be applicable in the condition of liquidation of business (Except transfers and divisions that make according to this code).

Moreover, according to 5.1.f. article of Corporation Tax Law; corporations which have been fallen to legal proceedings because of owe to the bank or Savings Deposit Insurance Funds, and their warrantors' real estates, participation stocks, founding bonds, redeemed shares, options to call of mortgagors' revenues that used for against debts or transferring to SDIF, 75% of real estates, and 50% others are exempted from Corporation tax (It was changed with 89th article of code 7061 that entries into force in 5 December 2017. According to dated 23 December 2017 3rd article of Corporation Tax Code (CTC) 14 annunciation this exemption will apply as ratio of 75% for selling that made till the 5 December 2017, after this date it will apply as ratio of 50%).

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments with tax authorities. Tax returns are required to be filled and delivered to the related tax office until the evening of the 25th of the fourth month following the balance sheet date and the accrued tax is paid until the end of the same month Tax returns are open for 5 years from the beginning of the year following the balance sheet date and during this period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Deferred tax is calculated on the tax rates applicable in the period when assets are made or liabilities are fulfilled or on those which are almost certain to be effective; and it is recorded as income or expense in the income statement. Moreover, deferred tax is recognised directly on equity accounts if it is related to the assets directly associated with the equity in the same or another period. Corporate Tax Law has been amended with Article 91 of the Law, No. 7061 effective upon promulgation in the Official Gazette, No. 30261, dated 5 December 2017; and the corporate tax levied on the corporate income has been increased from 20% to 22% to be applied for the income belonging to 2018, 2019 and 2020. The Bank calculates deferred tax at the relevant rates considering the periods in which deferred tax assets and liabilities will be fulfilled.

**XVIII. Additional Explanations on Funds Borrowed**

The Bank has not issued any convertible bonds.

The Bank has not also issued any borrowing instruments.

*Cash Warrants Received:*

BİAŞ Guarantee Fund, BİAŞ Loan and Share Market, Takasbank Money Market, Loan Share Market, Derivatives Exchange Market, Electricity Market, Leveraged call-put transactions and Warrant Deputy (OPIC), BİAŞ Money Market and Precious Metals Market, BİAŞ Swap Market, cash warrant amounts are tracked in asset side under banks account, in liability side under various liabilities account. These funds provide creditor members not to be affected in case debtor members may undergo cash default. Cash warrant mechanisms are created in order to provide continuous cash flow in the market by tracking payments to be made in time and in full amounts.

**XIX. Explanations on Issuance of Equity Securities**

The Bank does not have any shares issued in the current period.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XX. Explanations on Acceptances**

The Bank performs acceptances with its customers simultaneously and follows them in off balance sheet liabilities. The Bank has no acceptances that have been included as a liability against an asset.

**XXI. Explanations on Government Incentives**

There are no government incentives utilized by the Bank as of the balance sheet date.

**XXII. Explanations on Segment Reporting**

Operational segment is distinguishable section of the Bank that has different characteristics from other operational segments per earning and conducts the presentation of service group, associated bank products or a unique product. Reporting on operating segments is disclosed in Note VIII in Section Four.

**XXIII. Related Parties**

For the purpose of these financial statements, shareholders, key management personnel and board members associated with companies controlled by their families and themselves or affiliated companies, associates and joint ventures are referred to as related parties in accordance with TAS 24 - Related Party Disclosures.

**XXIV. Cash and Cash Equivalents**

For the purposes of the preparation of statement of cash flows, "Cash" includes cash, effectives, and cash in transit, purchased cheques and demand deposits including balances with the Central Bank; and "Cash equivalents" include interbank money market placements and time deposits at banks with original maturity periods of less than three months.

**XXV. Investment Properties**

Investment property consist of the asset that held to earn rentals and/or for capital appreciation and recognized with cost model in accordance with the Turkish Accounting Standard 40 (TAS 40) "Investment Property". Investment properties are recognized at its cost less any accumulated depreciation. Investment property is amortized by normal depreciation method and useful life basis. Gains and losses arising from disposal of an investment property or removal of a tangible asset are determined as the difference between the sales proceeds and the carrying amount of the asset and are included in the income statement.

**XXVI. Reclassifications**

Some reclassifications were made on statement of financial position dated 31 December 2018 and profit or loss statement, profit or loss and other comprehensive income statement, statement of changes in shareholders' equity and cash flow dated 30 June 2018 to be in compliance with the presentation of financial statements dated 30 June 2019.

**Explanations on TFRS 16 Leases standards**

The Bank has put TFRS 16 Leases standard into use starting from January 2019 for operational leasing transactions that the Bank is a counterparty. For the transactions the Bank is lessee, the Bank used the model the standard projects except for the low value assets and short term leasings (1 year or less).

TFRS 16 Leases standard abolishes the dual accounting model currently applied for lessees through recognizing finance leases in the balance sheet whereas not recognizing operational lease. Instead, it is set forth a single model similar to the present accounting of finance leases which is balance sheet based, singular accounting model. Standard brought a single model for lease accounting to lessees. The bank as a lessee, has shown right of use assets representing right of use of underlying assets and lease payment which the Bank is liable, in its financial tables. For lessors, the accounting stays almost the same.

This standard is applied with modified retrospective approach recognizing the cumulative effect of initially applying the standard at the date of initial application. In this context, the Bank did not restate comparative information.

---

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XXVI. Reclassifications (Continued)**

**Explanations on TFRS 16 Leases standards (Continued)**

The Bank recognizes a lease liability and a right-of-use asset at the date of initial application TFRS 16 for leases previously classified as an operating lease applying TAS 17. The Bank measures that lease liability by the present value of the remaining lease payments, discounted using the Bank's alternative borrowing rate at the date of initial application. Besides, the bank measures that right-of-use asset at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the statement of financial position immediately before the date of initial application.

**TFRS 16 Leases standard transition effect**

The following table shows the classification and adjustment records for the first application of TFRS 16 Leases Standard as of 1 January 2019.

	<b>31 December 2018</b>	<b>TFRS 16 Transition Effect</b>	<b>1 January 2019</b>
Property and Equipment (Net) <sup>(1)</sup>	11,847	149	11,996
Other Assets (Net)	46,528	(149)	46,379
Lease Payables (Net) <sup>(1)(2)</sup>	-	-	-

<sup>1)</sup> For leases classified as operating leases in accordance with TAS 17, TL 149 thousand lease liabilities and right-of-use assets amount has been reflected to financial statements as of 1 January 2019 in accordance with TFRS 16.

<sup>2)</sup> As of 1 January 2019, the weighted average of the alternative funding interest rates applied to TL lease liabilities are 23.4%.

**XXVII. Explanations on Other Matters**

None.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS  
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2019**

---

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**I. Explanations Related to Components of Shareholders' Equity (Continued)**

**Information on addition debt instruments to shareholders' equity calculating:**

None.

**Information on applied approaches in order to evaluate internal capital adequacy within the scope of internal capital adequacy evaluation of internal capital requirement in terms of future and current activities:**

The evaluation period for internal capital adequacy in the Bank has been designed within in accordance with the principle of proportionality and is consistent with the Guidelines on ISEDES Report and Guidelines on Stress Tests To Be Used By Banks For Capital and Liquidity Planning which is published by the Banking Regulation and Supervision Agency, and with the Regulation on Internal Systems of Banks and Internal Capital Adequacy Assessment Process (ISEDES) which entered into effect upon being published in Official Gazette No. 29057 dated 11 July 2014.

The Bank is in compliance with the said regulation and good practice guidelines in line with its small-scale structure, task environment, and requirements. In accordance with ISEDES, it is aimed for the Bank to internally determine a level of capital which covers the risks it has faced or is likely to face and to continue its operations with capital above that level. Maximum attention is paid to the ISEDES processes so that they are implemented with a long-term view and are risk focused, internalized within the Bank and that its consequences are used in the decision-making process.

Evaluations of the Bank's capital and liquidity adequacy are done from a risk-based perspective, considering the strategic plan, three-year budget projections, bank policies on capital adequacy, liquidity and funding, risk measurement outcomes for risks that the company is exposed to ISEDES and stress test reports. Within this scope, activities performed and services provided by the Bank are considered.

The Bank determines its capital level in such a way that it is above the minimum level and legal ratios required by the legal regulations of the Banking Regulation and Supervision Agency, and so that it is able to continue all its operations. Also, scenario analyses, and particular, plenary, and reverse-stress tests are done in order to measure the effects of parameters that affect the financial power of the Bank at the capital level. In addition, via sensitivity analyses, primary and secondary structural block risks that the Bank is exposed to are determined within the scope of the proportionality principle.

**CONVENIENCE TRANSLATION OF PUBLICLY ANNOUNCED  
UNCONSOLIDATED FINANCIAL STATEMENTS  
ISTANBUL TAKAS VE SAKLAMA BANKASI A.Ş.  
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS  
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2019**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**I. Explanations Related to Components of Shareholders' Equity (Continued)**

**Information on applied approaches in order to evaluate internal capital adequacy within the scope of internal capital adequacy evaluation of internal capital requirement in terms of future and current activities (Continued)**

The Bank takes stress tests, scenario analyses, risk appetites, the capital plan, the strategic plan and budget, the emergency and unexpected situation action plan for various risks, and other issues deemed necessary into consideration, and calculates and establishes a capital planning buffer, which is designed to prevent the capital adequacy level from becoming lower than the internal and legal minimum capital adequacy over the next three years as a result of possible negative situations and losses. The capital planning buffer is determined by considering worst case scenarios. However, the legal capital adequacy ratio determined by the BRSA as at least 12% and the ratio of the internal capital requirement calculated under the stress test are compared. The larger of these ratios is considered as the target ratio and it is evaluated whether the current capital adequacy ratio of the Bank is above the target rate.

According to the "Regulation on Internal Systems and the Internal Capital Adequacy Assessment Process of Banks", the ISEDES report and the Stress Test report are prepared annually with the participation of all relevant units of the Bank and the coordination of the Risk Management Unit. These reports are approved by the Board of Management or the Bank after being examined.

The senior management of the Bank and members of the Board of Management are jointly responsible for designing ISEDES and its implementation within the Bank. All units of the Bank execute their duties, authorities, and responsibilities which are within the scope of ISEDES in accordance with their own regulations. The inspection report regarding the data, systems, and processes is prepared by the Internal Audit Unit, and the validation report regarding the models and/or methods that are used for risk measurement within the scope of the internal capital adequacy calculation is prepared by the Internal Control and Compliance Unit.

**II. Explanations Related to Currency Risk**

The Bank is subject to the reserve requirements in relation to the foreign currency guarantees received for the Stock Exchange Money Market, Derivatives Market, Debt Securities Market, Electricity Market, Precious Metals Market, BİAŞ Money Market, Share Market, collaterals obtained for cash loans and non-cash loans and foreign currency amounts deposited in the Bank's accounts as guarantee and the foreign currency amounts left in the unrestricted accounts of customers consisting of brokerage firms, banks and other financial institutions except the foreign settlement transaction commissions and foreign currency amounts kept for its own transactions in accordance with the agreements made in foreign currencies. Therefore, the Bank performs its obligations in two-weekly periods in ratios designated in blocked accounts of the Central Bank of Turkey. The foreign currency amounts, kept due to the reserve requirements, are creating an excess amount of assets with regard to the ratio of assets to liabilities.

The Bank calculated a net long foreign exchange of TL 30,899 (31 December 2018: TL 15,935) for the net position between assets and liabilities in foreign currency, and recognised it in the amount basis to market risk.

Recognizing FX transactions of the Bank, the risk management policy that is also regarded in TL transactions is used and asset liability is managed so as not to be exposed to foreign exchange risk in transactions that affect FX assets and liabilities.

The Bank's foreign CBRT exchange bid rates as of the date of the financial statements and five working days prior to that date:

<b>Current Period</b>	<b>1 USD</b>	<b>1 EUR</b>	<b>1 GBP</b>	<b>100 JPY</b>

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**III. Explanations Related to Interest Rate Risk**

Interest rate sensitivity of the assets, liabilities and off-balance sheet items are measured by the Bank.

Forecast results which have been formed using estimation-simulation reports are prepared and then the effects of fluctuations in interest rates are evaluated with sensitivity and scenario analyses. Cash requirement for every maturity period are determined based on maturity distribution analysis (Gap). In addition, a positive spread between the yield on assets and the cost of liabilities is kept while determining interest rates.

To evaluate its funding resources, the Bank enters into foreign currency and TL depot transactions, repurchase agreements, time and demand deposit transactions and foreign exchange transactions with the Central Bank of Turkey or other banks. The related transactions undertaken by the Fund Management Department are made with the banks having transaction limits designated by the Board of Directors under the regulations set out in "Treasury Transaction Limits".

Other than securities guaranteed or issued by the Turkish Treasury, the Bank includes Government Debt Securities and debt securities issued by public banks in its portfolio during the year 2019. The Bank does not undertake any liability due to using derivative financial instruments attributable to its transactions in evaluating its funding resources.

**Information related to the interest rate sensitivity of assets, liabilities and off-balance sheet items (based on repricing dates):**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**IV. Equity share position risk in banking accounts**

As of 30 June 2019, the Bank has no equity share position risk arising from the equity share and banking accounts (31 December 2018: None).

**V. Explanations Related to Liquidity Risk**

The Bank pays attention to work under guarantees and committed to keeping most of its TL funds in liquid to meet the risks arising from transactions with Takasbank Money Market, Debt Securities Market, Futures and Options Market, Securities Lending Market, BIST Money Market, Share Market, BİAŞ Swap Market and other transactions.

The Bank's main liquidity management strategy is effectively handling of all Money Market Instruments and this instruments' potential risks have influence upon the Bank's balance sheet. Even in the most uncertain market conditions, the Bank maintains risk minimization through reducing risks of market instruments, diversifying instruments, matching of maturities, and obtaining optimum liquidity level. For this reason, the Bank is significantly liquid and is a fund provider in the Over-the-Counter Money Market and CB Interbank markets. Turkish Lira and foreign currency sales transactions with banks are done within the limits determined by the Board of Directors and the compliance of these transactions with limit conditions are controlled by the Internal Control and Legal Compliance Unit periodically.

The interest rates of payments, assets and liabilities are matched. Since there is no mismatch, there is no need for the measurement of the effect on profitability.

The Bank's short and long-term liquidity needs are met by internal and external resources.

Cash warrants that are received for cash flows of the Bank, amounts that are kept in its equities and members' free accounts, BİAŞ Guarantee Fund, BİAŞ Loan and Share Market, Takasbank Money Market, Loan Share Market, Derivatives Exchange Market, Electricity Market, BİAŞ Swap Market, Borsa Istanbul Money Market, Precious Metals Market, Leveraged call-put transactions, Warrant Deputy (OPIC) are made use of in Over-the-Counter Market with other banks via overnight repo in order to manage liquidity risk.

The Bank manages its liquidity risk by having enough cash and cash equivalent resources in order to meet present and probable debt obligations, by being able to close short positions and by being able to fund loan requirements.

Liquidity position is assessed and managed considering the market-wide and Bank-specific factors. The most important scenario among these scenarios is to maintain the ratio of net liquid assets/payables to clients in limits.

According to the fourth paragraph of Article 4 of the Regulation on the Calculation of Liquidity Coverage Rate of Banks, consolidated and unconsolidated total liquidity coverage ratio cannot be lower than 100 percent and consolidated and unconsolidated total liquidity coverage ratio in foreign currency cannot be lower than 80 percent and in accordance with Provisional Article I of the Regulation, the total and foreign currency liquidity coverage rates to be applied until 1 January 2019 are governed by the Board of Directors, with the appropriate opinion of the Central Bank of the Republic of Turkey.

According to the Decree of the Banking Regulation and Supervision Board dated 24 December 2015 and numbered 6613, for development and investment banks, it has been decided to apply the total and foreign currency liquidity adequacy ratios related to the first and second maturity brackets according to the first paragraph of Article 13 of the Regulation Regarding the Measurement and Evaluation of Banking Liquidity Adequacy and to continue to report to the Authority.

According to the fifth section of Article 4 of the Regulation on the Calculation of Liquidity Cover Ratio of Banks, it was decided that the ratio of consolidated and unconsolidated total and foreign currency liquidity coverage ratios shall be zero percentage.

**VI. Explanations Related to Leverage Ratio:**

**a) Information on issues that cause differences between current period and previous period leverage ratios:**

The leverage ratio calculated by the Bank in accordance with the “Regulation on Measurement and Assessment of Leverage of Banks” is 4.78% (31 December 2018: 5.43%). This ratio is above the minimum ratio and the regulation stipulates the minimum leverage ratio as 3%. The increase in the off-balance sheet transactions is the main reason for the change in the leverage ratio compared to the previous period.

**b) Leverage ratio:**

	Current Period <sup>(1)</sup>	Prior Period <sup>(1)</sup>
<b>Assets on the balance sheet</b>		
Assets on the balance sheet (excluding derivative financial instruments and loan derivatives, including collaterals)	17,802,725	12,333,588
(Assets deducted from core capital)	(110,444)	(107,230)
Total risk amount for assets on the balance sheet	17,692,281	12,226,358
<b>Derivative financial instruments and credit derivatives</b>		
Renewal cost of derivative financial instruments and loan derivatives	844,648	-
Potential credit risk amount of derivative financial instruments and loan derivatives	-	-
Total risk amount of derivative financial instruments and loan derivatives	844,648	-
<b>Financing transactions with securities or goods warranties</b>		
Risk amount of financial transactions with securities or goods warranties (excluding those in the balance sheet)	-	-
Risk amount arising from intermediated transactions	-	-
Total risk amount of financing transactions with securities or goods warranties	-	-
<b>Off-the-balance sheet transactions</b>		
Gross nominal amount of the off-balance sheet transactions	19,880,673	17,034,042
(Adjustment amount arising from multiplying by the credit conversion rate)	-	-
Total risk amount for off-balance sheet transactions	19,880,673	17,034,042
<b>Capital and total risk</b>		
Tier 1 capital	1,837,221	1,588,083
Total risk amount	38,417,602	29,260,400
<b>Leverage ratio</b>		
Leverage ratio (%)	4.78%	5.43%

<sup>(1)</sup> The amounts in the table are calculated by using the quarterly average amounts.

**VII. Risk management objectives and policies**

The purpose of the risk management system is to define, measure, track, and report the risks, through policies, implementing procedures, and limitations identified to track, control, and, when necessary, change the risk-gain structure of future cash flows of the Bank and therefore the nature and level of its activities.

The purpose of the internal capital adequacy assessment process (ISEDES) is to internally determine the capital level which is adequate to compensate for the risks that the Bank is or is likely to be exposed to and to enable the Bank to continue its operations with capital above this level.

When establishing and implementing the Risk Management System and ISEDES, the proportionality principle is considered, in accordance with BRSA legislation and good practice guidelines.

The general risk policy of the Bank is to perform its activities taking manageable, controllable, and reasonable risks, which maintain the balance between income and expenses. The Bank manages its risks in such a way that they stay above the minimum and below the maximum levels stated in the regulations published by the BRSA and below the risk appetite confirmed by the Board of Directors.

The risk capacity of the Bank is decided in accordance with its capital adequacy policy. When doing capital and liquidity planning, the current and under-stress liquidity requirements of the Bank as well as its risk appetite and capacity, are considered together.

The fund management strategy of the Bank is designed to avoid any liquidity problems, to sustain optimization of the risk-income balance, and to obtain maximum benefits from resources while taking a reasonable level of risk.

FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2019**

**SECTION FIVE**

**EXPLANATIONS AND DISCLOSURES ON UNCONSOLIDATED FINANCIAL STATEMENTS**

**I. Explanations Related to the Assets**

**1. Information on Cash and Balances with the Central Bank of Turkey:**

1.a) Information on cash and balances with the Central Bank of Turkey:

	Current Period		Prior Period	
	TL	FC	TL	FC
CBRT	43	-	63	78,914
Cash/foreign currency	125	-	60	-
Other	-	-	-	-
<b>Total</b>	<b>168</b>	<b>-</b>	<b>123</b>	<b>78,914</b>

1.b) Information related to the account of the Central Bank of Turkey:

	Current Period		Prior Period	
	TL	FC	TL	FC
Unrestricted demand deposit	125	-	63	-
Unrestricted time deposit	-	-	-	78,914
Restricted time deposit	-	-	-	-
<b>Total</b>	<b>125</b>	<b>-</b>	<b>63</b>	<b>78,914</b>

1.c.) Information on required reserves:

In accordance with the Official Statement numbered 2013/15 about Required Reserves, liabilities that are subject to required reserves have been changed. Required reserves are not kept in the Central Bank of Turkey as the liabilities stated in the newly announced Official Statement are lacked in the Bank.

**2. Information on financial assets at fair value through profit and loss (net):**

2.a) Information on government debt securities: None (31 December 2018: None).

2.b) Information on marketable securities representing the Bank's share: None (31 December 2018: None).

2.c) Information on other financial assets: None (31 December 2018: None).

**3. Information on Banks**

3.a) Information on banks and other financial institutions:

	Current Period		Prior Period	
	TL	FC	TL	FC
Banks				
Domestic	10,270,344	5,082,986	6,362,584	4,428,698

More than 4 years	-	-	-	-
<b>Total</b>	<b>326</b>	<b>255</b>	<b>-</b>	<b>-</b>

**5. Information on provisions:**

- a) Information on employee termination benefits and unused vacation accrual:

Under Turkish Labour Law, the Bank is required to pay employment termination benefits to each employee who has qualified. Also, employees are required to be paid their retirement pay provisions who retired by gaining right to receive retirement pay provisions according to current 506 numbered Social Insurance Law's 6 March 1981 dated, 2422 numbered, 25 August 1999 dated and 4447 numbered with 60th article that has been changed. Some transition provisions related to the pre-retirement service term was excluded from the law since the related law was changed as of 23 May 2002. The provision for employment termination benefits of the Bank is calculated over the TL 6,017.60 (31 December 2018: TL 5,434.32) (full TL) which is the maximum amount of employment termination benefits.

The liability is not funded, as there is no funding requirement. The provision has been calculated by estimating the present value of the future probable obligation of the Bank arising from the retirement of employees. TAS 19 requires actuarial valuation methods to be developed to estimate the enterprise's obligation under defined benefit plans. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

The main assumption is that the maximum liability for each year of service will increase parallel with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. Consequently, in the accompanying financial statements as of 30 June 2019, the provision has been calculated by estimating the present value of the future probable obligation of the Bank arising from the retirement of the employees. The provisions at the balance sheet date have been calculated assuming an annual inflation rate of 11.4% and interest rate 16.1% and a discount rate of 4.22% (31 December 2018: 13.5% inflation rate, 5.09% discount rate). The estimated rate of severance pay amount which is not paid and to be held in the bank as a result of optional leavings are also considered.

	<b>Current Period</b>	<b>Prior Period</b>
Total liabilities of employee terminations (Undiscounted)	12,213	11,498
Provision for employee termination (Presented in financial statements)	6,688	5,640
The ratio of provision to undiscounted total liabilities (%)	54.76	49.05

As of 30 June 2019, the Bank provided a reserve of TL 9,351 (31 December 2018: TL 7,045) for the unused vacation which classified under Reserve for Employee Benefits in the financial statements.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS  
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2019**

**EXPLANATIONS AND DISCLOSURES ON UNCONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**II. Explanations and Notes Related to Liabilities (Continued)**

**7. Information on Shareholders' Equity:**

**a) Presentation of Paid-in capital:**

	<b>Current Period</b>	<b>Prior Period</b>
Common stock <sup>(1)</sup>	600,000	600,000
Preferred stock	-	-

<sup>(1)</sup> As of 30 June 2019, the Bank has totally 6,000,000,000 issued share certificates. 2,000 of these shares are preferred shares.

**b) Paid-in capital amount, explanation as to whether the registered share capital system is applicable at the Bank if so, and amount of registered share capital ceiling:** Registered share capital system is not applied as of the balance sheet date (31 December 2018: Not applied).

**c) Other information on the share of capital increased through capital contributions performed during the current period and capital funds:** None (31 December 2018: None).

**d) Information on share capital increases from capital reserves during the current period:** None (31 December 2018: None).

**e) Capital commitments in the last fiscal year and at the end of the following interim period, the general purpose of these commitments and projected resources required to meet these commitments:** None (31 December 2018: None).

**f) Indicators of the Bank's income, profitability and liquidity for the previous periods and possible effects of these future assumptions on the Bank's equity due to the uncertainty of these indicators:**

Due to the Bank's liquid position and good relations with other banks, the Bank has the means to provide low cost financing and place it in domestic market which leads to profits. In parallel with this, if similar circumstances will occur in the future, it can be predicted that profitability will increase and this will improve the equity of the Bank with retained profits.

**g) Information on preferred shares:**

As of 30 June 2019, the Bank has preferred shares with a nominal value of TL 200 (full TL). According to the article six of the Articles of Association, the shares which represent group shares of the newly issued group A and B shares belong only to BİAŞ and cannot be transferred. Besides, according to the Bank's Articles of Association - article 9/2, four members of the board of directors are chosen by the General Assembly, among the candidates presented by group shareholders.

**h) Information on marketable securities valuation reserve:**

None (31 December 2018: None).

**i) Information on past year profit distribution:**

The Bank transferred TL 23,987 as legal and TL 380,753 as extraordinary reserves over the TL 479,740 net income available for distribution from 2018. In the Bank's Ordinary General Assembly Meeting held on 19 April 2019, it was decided to distribute a TL 75,000 cash dividend to the Bank's shareholders.

**j) Information on minority shares:**

None (31 December 2018: None).

**SECTION SEVEN**

**EXPLANATIONS ON INTERIM ACTIVITY REPORT**

**Chairman of the Board of Director’s Evaluation Regarding the Operating Period**

Takasbank, which has become an important financial infrastructure company with the services it offers to our country's markets, continues to contribute to the development of our markets in a more stable and sustainable structure.

The loss of momentum observed in the global economy in 2018 with the increase in the uncertainties related with global economy policies, the deepening of the slow-down trend in economic activities and the start of widespread deployment of protectionist trade approach indicate that the downstream risks related with the growth outlook will prevail in 2019. In line with these developments, IMF has revised the global growth expectation from 3.5% down to 3.3% for 2019. In the IMF report, it is stated that while the global economic growth would go upward in case of settlement of global trade disputes; further escalation in trade tensions and the related risks and uncertainties might worsen the weakening in growth. The normalization processes in the monetary policies of the central banks of developed countries have significantly paused due to the high uncertainty in the global economic policies and the trend of slowdown in the economic activities observed during the first quarter of 2019. The Central Bank of the USA (FED) and the European Central Bank (ECB) stated that they would continue to support the economy through additional monetary incentives and interest rate cuts in order to manage the uncertainties in the global outlook.

Under a tight monetary policy stance and strong policy coordination focused on bringing inflation down as applied by the economy management in our Country, the increased appreciation in TL and the positive contribution of import prices have caused inflation to decline by a higher-than-expected rate, thus falling down to the level of 15.74% in the first half of 2019. With the New Economy Plan implemented, our Government has delineated a fiscal policy framework covering the “Structural Transformation Steps” in line with the process of balancing the economic activities. With the policies and necessary measure and incentives developed to this effect, it has supported the process of recovery in the financial conditions, contributed in the improvement in the risk premium of the country and limited the fluctuations in the exchange rates. It is anticipated that the positive contributions that the expansionary monetary policies expected to be applied by the global central banks will make in the global economy will also support the economic activities of our Country.

Our bank completed a successful 2019 six months of financial period, our pre-tax profit being realized as TL 428.8 million, total assets as TL 16.3 billion and shareholders’ equity as TL 2 billion.

Within the scope of the objective to contribute in the deepening of the markets by increasing the diversity of assets acceptable as collaterals in all markets served; the shares of Borsa Istanbul A.Ş. have been started to be accepted as collaterals in Takasbank Money Market and cash loan transactions. For the purpose of development of the Swap Market, netting-off has been started to be implemented for the transactions executed in the market; in addition, the Eurobonds issued by the Republic of Turkey Ministry of Treasury and Finance and the exchange-traded gold have been included in the assets acceptable as collaterals.

Within the scope of the goal to ensure that our Bank’s CCP and central clearing and settlement practices converge to the international best practices, Takasbank has been accepted as a member of CCP12 in the Annual General Meeting of CCP12 serving as the Global Association of Central Counterparties, which was held in London on 06/06/2019.

I would like to thank all of our stakeholders, especially our employees and managers, who have a share in the successful performance of our Bank during this period, on behalf of myself and the Board of Directors.

Best regards,

Murat ÇETİNKAYA  
Chairman of the Board of Directors

**SECTION SEVEN (Continued)**

**EXPLANATIONS ON INTERIM ACTIVITY REPORT (Continued)**

**CEO's Evaluation regarding the Operating Period**

Throughout in the six months of 2019, our bank continued its efficient and effective progress for Turkish capital markets, shareholders and customers and showed a successful performance.

Evaluating the 2019 financial results of our bank for the six month period ended, it is observed that a pre-tax profit of TL 428.8 million is obtained. Also, total assets, shareholder equity and cash collateral are realized as TL 16.3, 1.2 and 9.8 billion respectively.

Throughout the period, a total TL 6,314.75 billion transactions executed in BİAŞ Debt Securities Market Outright Purchases and Sales Market and Repo-Reverse Repo Market. Of these transactions, TL 11.73 billion are corporate bond transactions. As a result of multilateral netting process in the Takasbank system, Takasbank executed cash settlement with a value of TL 952.18 billion and securities settlement with a market value of TL 3,932.22 billion.
