CHAPTER TWO

Membership Principles

Membership

ARTICLE 5 -

- (1) Institutions that satisfy the conditions prescribed in article 6 of this Directive may become a member of the SLM provided that they are authorized by Takasbank.
- (2) Those who are eligible to become a member of SLM shall also be designated as a direct Central Counterparty member in SLM pursuant to the first paragraph of article 8 of the Central Counterparty Regulation.

Membership conditions

ARTICLE 6 -

- (1) In addition to the conditions set out in article 7 of the Central Counterparty Regulation, the following conditions must also be satisfied for membership:
 - a) Having obtained the capital market operating license that enabling to execute borrowing/lending transactions pursuant to the relevant legislation,
 - b) The minimum equity capital of the member not being less than TL 10.000.000-.
 - c) Having submitted the declaration related to the data processing, risk management, internal control and internal audit systems, in a format that suits the template set by Takasbank, which has been approved by the Board of Directors of the Members wishing to borrow from the Market.
- (2) Regarding the SLM transactions, Takasbank shall be authorized to determine the minimum criteria it would seek for the Member’s information technology, risk management, internal control and internal audit systems within a procedure it will issue, to allow time for compliance to the institutions who fail to meet the prescribed criteria, to receive commitment as well as to control whether the criteria have been met.

- (3) The Board of Directors is authorized to increase the minimum amount of equity capital stated in the item (b) of the first paragraph or to decrease it up to its previous level thereof by taking the relevant capital markets regulations and the market conditions into consideration.

Obligations of the Members

ARTICLE 7 -

- (1) In addition to the obligations specified in article 12 of the Central Counterparty Regulation, the Members are required to;
- a) act in accordance with the rules and principles stipulated by Takasbank with this Directive and the Procedure for the SLM transactions,
 - b) deliver the securities subject to lending, and pay the transaction commission and Takasbank commission, and
 - c) inform Takasbank about their representatives and the relevant updates about them thereof and provide and/or send the information and documents requested by Takasbank within the given time period.

Restriction on Trading Activities of the Member

ARTICLE 8 -

- (1) The SLM activities of the Members may be restricted by Takasbank in the following situations:
- a) Termination of its membership or suspension of its activities in the markets or capital market instruments where the clearing and settlement service is provided pursuant to article 13 of the Central Clearing and Settlement Regulation,
 - b) Restriction of its activities in the markets or capital market instruments where the central counterparty service is provided pursuant to the second paragraph of article 14 of the Central Counterparty Regulation,
 - c) Failure to fulfill the obligations stipulated in this Directive, the Procedure and in the Securities Lending Market Agreement required to be signed between Takasbank and the Member prior to starting transactions,
 - ç) Identification of any unfavorable situation related to the Member such as protest, seizure, provisional injunction, temporary or permanent suspension of its activities, cancellation of its relevant operating permit, prohibition to execute transaction related to capital market instruments for any reason, decision rendered on its gradual liquidation or bankruptcy, or existence of negative intelligence,
 - d) As a result of the intelligence, financial analysis and/or rating studies periodically conducted by Takasbank; determination of the fact that the credit worthiness of the Member is either diminished or does not exist.
- (2) The Members cannot execute any transaction at the SLM on behalf of the accounts of their portfolios or customers in situations where;
- a) they are in the status of securities default in the SLM or have margin call obligation,
 - b) they are banned from trading or have similar restrictions.
- (3) If any situation referred to in this article occurs, Takasbank may resolve the outstanding liabilities of the Member against SLM to be liquidated either in part or in whole. Should any decision be made by Takasbank in this direction, the liabilities of the Member shall become due and payable in accordance with the provisions of article 30 of this Directive and shall be liquidated thereof in accordance with the same article.
- (4) If the Member's activities are restricted for reasons referred to in the items (a) and (b) and (ç) and (d) of the first paragraph of this article, this situation shall be notified to the Board on the next business day. On the other hand, if the Member's activities are restricted pursuant to the item (c) of the first paragraph of this article, and if such restriction exceeds 1 business day, a notice shall be notified to the Board by Takasbank thereof.

Termination of Membership

ARTICLE 9 -

- (1) The membership may be terminated in accordance with the provisions of article 15 of the Central Counterparty Regulation.

CHAPTER THREE Operating Principles of the SLM

Status of Takasbank

ARTICLE 10 -

- (1) Pursuant to this Directive and the Procedure to be published in accordance with this Directive;
 - a) Takasbank is the institution that operates the SLM. The principles and procedures regarding the market orders and transactions shall be stipulated in the Procedure.
 - b) Takasbank is the central counterparty in the SLM transactions with the open-offer method. It acts as the borrower against the lender and as the lender against the borrower.
- (2) Regarding the fulfillment of obligations arising from the lending and borrowing transactions executed by the Members on behalf their customers, Takasbank deals only with the Members. Takasbank shall not be held liable for the obligations of the Members against their customers.
- (3) In the open-offer method, the liability of Takasbank against the parties of the transaction starts at the moment the lending and borrowing orders are matched and ends with the settlement of the obligations.
- (4) Takasbank shall be responsible for returning the securities subject to the lending transaction to the lender at the maturity date of the lending transaction and paying a transaction commission for the time period to be elapsed until the date of return. If the security is failed to be returned, then the corresponding cash amount calculated in accordance with the principles and procedures stipulated in the Procedure shall be paid to the Member.
- (5) The borrowing member shall be responsible against Takasbank for returning the securities at the maturity date of the transaction and paying a transaction commission for the time period to be elapsed until the date of return. Takasbank, upon request of the member, shall return the securities subject to the transaction in accordance with the provisions of the agreement that it has signed with the Member, provided that the borrowing Member fulfilled its obligations pursuant to the paragraph hereof.
- (6) The rights and liabilities of the borrowing and lending members stipulated in this Directive shall be reserved.
- (7) If the parties of the transaction change their intentions in a mutually agreed manner in accordance with the principles and procedures stipulated in the Procedure or if the transactions are cancelled after the order matching by technical reasons, then Takasbank shall not be deemed to assume any commitment in its capacity as a central counterparty; and for such transactions and Takasbank shall automatically be relieved from the central counterparty position as of the moment of order matching, without the need of any further action.

Working Principles of SLM

ARTICLE 11 -

- (1) In the SLM, the borrowing and lending orders shall be given by the members on a portfolio, customer, investment fund and investment trust basis.
- (2) Pursuant to the fifth paragraph of article five of the Central Counterparty Regulation, transactions conducted by the Member by giving the portfolio, customer, investment fund and investment trust codes shall be monitored separately under the accounts of the member held with Takasbank.

- (3) For the orders and transactions; the principles and procedures regarding the value date, maturity, time, order transmission, realization, amendment, cancellation and modification as well as the order types, the representatives and the amounts shall be stipulated in the Procedure.

Thresholds and Trading Limits

ARTICLE 12 -

- (1) Takasbank shall allocate a “SLM Limit” to the members. Such limit shall not constitute a commitment of Takasbank.
- (2) The SLM limit set by Takasbank is confidential and shall be notified to the relevant members in writing. Takasbank shall have the right to make amendments in the SLM limit allocated to the members.
- (3) The member can borrow the valued collaterals either for its own portfolio or for its customers portfolio within the limits set by Takasbank.
- (4) During an order entry, total market value of all borrowing transactions executed by the Member cannot exceed the prescribed SLM limit. The price changes may cause the risk amount to exceed the limit.
- (5) There is no limit conditions for the lenders.
- (6) Shares and exchange-traded fund participation certificates removed from the eligible securities that may be subject to margin trading and short selling shall be removed from the Securities subject to Lending from the end of the settlement period of the final date that they are made subject to short selling and margin trading of securities.
- (7) Takasbank shall be authorized to impose restrictions on the securities that may be subject to the lending on a market, customer and account basis. The application principles thereof shall be stipulated in the Procedure.
- (8) The maximum market value of each order shall be determined in the Procedure provided that the maximum transaction value set in the Exchange spot market shall not be exceeded.

Segregation and Portability

ARTICLE 13 -

- (1) In the SLM, the positions and collaterals of the customers are monitored in the single-position and collateral accounts exclusively opened on the name of the customers connected to the member and separately from the member's own portfolio and collaterals. For the transactions executed by Takasbank within the scope of central counterparty services, the collaterals in the collateral accounts associated with the single customer positions shall be deemed to belong to the customers.
- (2) The positions and collaterals of the Members' own portfolios are monitored in the single position accounts and associated collateral accounts to be opened exclusively for the members.
- (3) For the transfer of positions and relevant collaterals monitored in the single accounts, the principles and procedures specified in article 26 of the Central Counterparty Regulation shall be applied. The accounts that cannot be transferred due to collateral deficit or have any collateral deficit after the settlement of the positions may be liquidated in accordance with the principles set out in Chapter Six of this Directive. Any collateral that may remain after the settlement of the positions in the accounts failed to be transferred due to the unavailability of a Member to take them over shall be returned in accordance with article 27 of the Central Counterparty Regulation.
- (4) If the central counterparty membership be temporarily suspended pursuant to the third paragraph of article 14 of the Central Counterparty Regulation for a period of no more than three months, then the positions and collaterals in the accounts connected to the relevant member may be transferred in accordance with article 26 of the Central Counterparty Regulation.

SLM Data screens

ARTICLE 14 -

- (1) Access to the SLM data is made available through the SLM data screens or the application screens provided by Takasbank, where necessary. Orders and transactions entered to the system are reflected to the SLM screens.
- (2) The data vendors and the screen codes as well as the screen features shall be announced by Takasbank.

Settlement of Securities

ARTICLE 15 -

- (1) For the same day value transactions, the settlement of the securities subject to the transaction shall be made at the moment the transaction is executed; and for the future-dated transactions, the settlement thereof shall be made on the value date by transferring them to the relevant accounts held with the CRA.
- (2) Debts on lent securities which become due shall be closed via the screens provided by Takasbank till the debt closing deadline specified in the Procedure either partially or wholly by using the accounts of the borrower with the CRA. The securities returned after the closing shall be transferred to the accounts of the lenders held with the CRA.

Rights arising from securities subject to lending

ARTICLE 16 -

- (1) The financial rights (bonus issue, rights issue and dividend) arising from the stocks subject to loan shall belong to the lender. However, the lender will lose its voting rights associated with the securities subject to lending. If the date of the capital decrease falls between the value date and the maturity date of lending, then the number of lending transactions to which the stocks on capital decrease are subject to shall be updated at the rate of the capital decrease.

Takasbank commission

ARTICLE 17 -

- (1) The fees to be charged by Takasbank for the transactions executed in the SLM and their collection ways and periods thereof shall enter into force by the proposal of the Board of Directors and approval of the Board.
- (2) The resolution of the Board of Directors regarding the fees and commissions submitted to the Board for approval shall enter into force within 30 days unless no adverse opinion is issued by the Board. In the event the information and documents submitted in the application by Takasbank are found incomplete or if additional information, documents and works are required, then Takasbank shall be informed accordingly and asked to rectify such incompleteness within the time period to be set by the Board. In such a case, the 30-days period shall start from the date the incomplete or additional information, documents and works are submitted to the Board.
- (3) The commission amount shall be collected ex-officio from the accounts of the members being a party to the transactions.

CHAPTER FOUR Principles Regarding the Collaterals

Assets accepted as eligible collateral

ARTICLE 18 -

- (1) The following assets can be used in SLM.
 - a) Cash (TL/Convertible Foreign Currency),
 - b) Government Domestic Debt Securities,
 - c) Gold in the standard traded on the Exchanges,
 - ç) Stocks determined by Takasbank and traded on the Exchange.

- d) Mortgage-backed securities, mortgage-based securities, asset-backed securities and asset-based securities
- e) Borsa Istanbul Group Type “C” shares

Collateral agreement

ARTICLE 19 -

- (1) If the capital market instruments held in book-entry form are provided as collateral, then a written collateral agreement shall be made between Takasbank and the Member pursuant to article 47 of the Law.
- (2) In the collateral agreements related to the capital market instruments held in book-entry form, the title transfer of collaterals to Takasbank can also be decided. If the title transfer of collaterals to Takasbank is decided, Takasbank shall acquire the ownership right at the moment the agreement is executed and as a result of the transfer of such capital market instruments provided as collateral in accordance with legal procedures.
- (3) In cases where the receivables of Takasbank are required to be covered from collaterals because of the reasons stipulated in the provisions of the agreement or of the relevant legislation or due to the default of the Member, then Takasbank shall be entitled to sell the asset given as collateral in the exchange or other organized markets, if such asset is listed in any of these markets, and cover its receivable from the sale proceeds thereof, without having any obligation to fulfill any precondition such as serving any notice or warning, allowing time, obtaining a permission or approval from the administrative or judicial authorities, converting collateral into cash through an auction or another way, etc. Takasbank shall also be entitled to set-off the value of the capital market instruments given as collateral from the liabilities of the borrower provided that the title of such collaterals has been transferred.
- (4) The rights arising from the assets held as collateral belong to the party supplying collateral. However; if the title transfer of collaterals to Takasbank has been decided by the agreement made between Takasbank and the party supplying collateral pursuant to article 47 of the Law, then the rights arising from such collateral shall belong to Takasbank. Takasbank shall return the collateral on the maturity date together with their rights accrued thereof in accordance with the provisions of article 27 of the Central Counterparty Regulation and upon request of the Member; however provided, , that, all obligations are completely fulfilled.

Collateral Monitoring and Management

ARTICLE 20 -

- (1) In the SLM, gross margining method is employed.
- (2) Collaterals monitored in the accounts associated with the single customer positions can neither be used for closing collateral deficits arising from the accounts belonging to the Member’s own portfolio or from other customer accounts nor for resolving the default.
- (3) Pursuant to article 79 of the Law, the rights and powers of Takasbank on the asset values taken as collateral for the SLM operations that it executes as a central counterparty cannot be limited in any way. Lack of power of disposition of the Member, for any reason, on the asset values given as collateral shall not prevent Takasbank from establishing a real right in good faith. Title or limited real right claims of third parties on the asset values given as collateral cannot be asserted against Takasbank.
- (4) Devoting time for composition with creditors about the party supplying collateral, approval of its composition, devoting time for composition after bankruptcy, inclusion of its assets by abandonment into the composition process, restructuring of its debts by an arrangement, its bankruptcy, postponement of its bankruptcy, or the relevant provisions of the Law regarding gradual liquidation or the proceeding procedures stipulated under the Execution and Bankruptcy Law No. 2004 cannot limit Takasbank’s rights and powers on collaterals in any way.

- (5) The principles and procedures for deposit, withdrawal and replacement of assets accepted as eligible collateral and the time periods in respect thereof shall be stipulated in the Procedure

Accrual of interest on cash collateral

ARTICLE 21 -

- (1) Interest shall be accrued on the remaining amount of collateral in cash Turkish Lira in the accounts after deduction of the amount to be maintained as compulsory reserve by Takasbank in accordance with the limits set by Takasbank with the best possible conditions by taking the credit risk and liquidity positions into consideration.
- (2) Taxes and other legal liabilities and Takasbank's commission shall be deducted from the gross interest amount that has been earned through the accrual process.
- (3) The cash collateral in Turkish Lira to be subject to the interest accrual process can only accrue interest if it is available in the Takasbank SLM collateral account at the time prescribed in the Procedure. Turkish Lira denominated cash collaterals which have accrued interest are not allowed to be withdrawn.

Collateral rates and margin call

ARTICLE 22 -

- (1) The collateral rates are calculated over the valuated collateral amounts. The appreciated collateral amount is found by multiplying the market values of the collaterals by the haircuts specified in the Procedure.
- (2) The initial margin rate shall be determined by Takasbank according to the market conditions and the volatility of the security subject to lending and/or of the group or index to which the security belongs, to be calculated with at least 99% confidence level, provided that it shall not be less than 110% of the market value of the security subject to lending and the minimum level that the collateral rate may fall shall also be not less than 100%; and shall be published in the Procedure accordingly.
- (3) When total valuated collateral falls below the prescribed minimum level, the variation margin shall be calculated by Takasbank and a margin call thereof shall be issued to the members and they are asked to restore the collateral to its initial margin rate. The margin call shall be notified by sending messages and reports to the customer screens provided by Takasbank. If the margin call is transmitted through the system, the Member shall be deemed to have received the call without any further notice or information thereof. The responsibility of the Member shall begin at the moment the margin call transmitted by Takasbank is received by the Member.

Composition of the collateral

ARTICLE 23 -

- (1) Cash collaterals cannot be less than 30% of the total valuated collateral amount. Takasbank shall be authorized to set a higher rate according to the developments in the market.
- (2) Stock collaterals cannot be more than 40% of the total valuated collateral amount. The stocks accepted as eligible collateral, their types and the principles regarding the limitations thereof shall be stipulated in the Procedure.
- (3) Mortgage-backed securities, mortgage-based securities, asset-backed securities and asset-based securities as collateral cannot be more than 50% of the total valuated collateral amount. The criteria regarding the assets to be accepted as collateral from the mortgage-backed securities, mortgage-based securities, asset-backed securities and asset-based securities are to be stipulated in the Procedure.
- (4) Borsa Istanbul Group Type "C" shares as collateral cannot be more than 50% of the total valuated collateral amount. The criteria regarding Borsa Istanbul Group Type "C" shares to be accepted as collateral are to be stipulated in the Procedure.

Valuation Haircuts

ARTICLE 24 -

- (1) The parametric, non-parametric or simulation based statistical methods that are deemed appropriate by Takasbank shall be used for the calculation of haircut valuation to be applied to the collaterals and the guarantee fund contribution amounts. In the determination of the collateral haircut valuation, the credit risk and the maturity of the relevant asset being evaluated by Takasbank, its volatility in the extraordinary market conditions, its liquidity, and its currency risk, if any, shall be taken into consideration.
- (2) The statistical confidence level and the liquidation period to be used for such calculations cannot be less than 99% and 2 business days respectively. It is essential that the historical data to be used in the calculations should not be less than 1 year. For those assets which have insufficient or no historical data, the valuation haircuts thereof shall be determined on the basis of the haircuts calculated for the assets that have similar characteristics. The valuation haircuts to be determined in this way shall be included in the Procedure.
- (3) The valuation haircuts are reviewed on a regular basis and in periods that are not longer than one year. The haircuts, if deemed necessary, may also be updated without waiting for the regular review period and announced to the Members accordingly.
- (4) The validity of the collateral valuation method being employed is also controlled by Takasbank internal system departments and audited at least once a year.

CHAPTER FIVE Principles Regarding the Guarantee Fund

General principles

ARTICLE 25 -

- (1) A Guarantee Fund which may be incurred as a result of the default of the Members shall be established by Takasbank with the contribution amounts of the members in order to be used for the portion of the losses exceeding the collaterals of the relevant Member.
- (2) The guarantee fund/funds contribution amounts of the Central Counterparty Members are composed of the guarantee fund contribution amounts that have been already deposited and of the additional guarantee fund contribution amounts to be deposited when requested. If the Guarantee Fund is used in accordance with the provisions of the Central Counterparty Regulation, then the Central Counterparty Members may be asked to make contribution four times in a year at most. The additional guarantee fund contribution amount cannot exceed the guarantee fund contribution amount that should have been deposited on the relevant default date.
- (3) No recourse to the guarantee fund contributions of other Members shall be made unless the collaterals of the defaulting Member, its guarantee fund contribution and the capital allocation made by Takasbank for the risks assumed in the SLM become inadequate.
- (4) For the principles regarding the repayment of the guarantee fund contribution amounts of the members whose SLM membership has been terminated, the provisions of article 33 of the Central Counterparty Regulation shall apply.
- (5) SLM Guarantee Fund is represented and managed by Takasbank.
- (6) The assets in the Guarantee Fund cannot be used other than their intended purpose.

Interest accrual on the cash contribution amounts in the guarantee fund

ARTICLE 26 -

- (1) Interest shall be accrued on the remaining amount of the guarantee fund contribution in cash Turkish Lira deposited by the Members after deduction of the amount to be maintained as compulsory reserve by Takasbank with the best possible conditions by taking the credit risk and liquidity positions into consideration.
- (2) Taxes and other legal liabilities and Takasbank's commission shall be deducted from the gross interest amount that has been earned through the accrual process.
- (3) The contribution amounts in the Guarantee Fund being subject to the interest accrual process can only accrue interest if they are available in the Takasbank SLM Guarantee Fund Contribution Amount account at the time prescribed in the Procedure. The Guarantee Fund Contribution Amounts which have accrued interest are not allowed to be withdrawn.

Size of the guarantee fund and the contribution amounts to be provided by the members

ARTICLE 27 -

- (1) The size of the guarantee fund shall be determined by taking the market conditions into consideration provided, however, that it shall not be less than the greater of the funding requirement that may arise as a result of the default of the Member who has the highest borrowing and of the joint default of the Members who have the second and third highest borrowing. The funding requirement is composed of the portion of the Members' risks that cannot be covered by their collaterals at a certain confidence level. Such risk equals to the amount to be found by multiplying the difference between the VaR amount calculated for the lent securities and the portion exceeding 100% of the collaterals by the open positions of the members. The minimum confidence level and the holding period to be used for the value at risk calculations of the securities subject to lending cannot be less than 99% and 2 business days respectively.
- (2) For the calculation of the size of the guarantee fund, the Member-based daily borrowing data (open position) for a look back period of minimum one year, if any, are used, The sufficiency of the existing guarantee fund is tested by the calculation renewal of the total size of the guarantee fund in a period of not being less than three months.
- (3) The contribution amounts to be provided by the members to the guarantee fund are composed of the fixed contribution amounts and the variable contribution amounts calculated pro rata to the risks they have assumed. The variable contribution amounts are composed of sequential tranches which have lower and upper limits. The fixed contribution amount, on the other hand, is determined at a level that would not exceed the average amount to be found by dividing the required size of the guarantee fund to the number of members.
- (4) For the calculation of total guarantee fund contribution amount required to be provided by each member, the guarantee fund risk amount which is calculated by multiplying the aggregate borrowing amount of the Members by a risk haircut to be determined shall be used.
- (5) The guarantee fund requirement of each member shall be equal to the fixed contribution amount, if the calculated guarantee fund risk amount of such member is lower than the fixed contribution amount; and if not; it shall be equal to the upper limit of the tranche that the relevant amount falls into.
- (6) For the calculation of the Members' risk amounts, the average amount borrowed in certain time intervals to be determined retrospectively and specified in the Procedure.

Contribution amount to be deposited to the guarantee fund

ARTICLE 28 -

- (1) The Members can provide the collateral types referred to in article 18 of this Directive, except for the item (ç) (d) and (e,) as a guarantee fund contribution amount without any limitation.
- (2) The valuation haircuts to be applied to the Members' contribution amounts to be deposited to the guarantee fund shall be decided based on the same principles applicable for the collaterals. Principles governing the exercise of the rights arising from the Guarantee Fund contribution amounts and other issues related to the contribution amounts shall be stipulated in the Procedure.

Guarantee fund margin call

ARTICLE 29 -

- (1) When the guarantee fund contribution amounts of the Members fall below to the minimum level specified in the Procedure, then a margin call for the guarantee fund contribution amount shall be notified by Takasbank to the relevant members. The margin call for the guarantee fund contribution amount shall be transmitted by sending messages and reports to the customer screens provided by Takasbank. If the margin call for the guarantee fund contribution amount is transmitted through the system, the Member shall be deemed to have received the call without any further notice or information. The responsibility of the Member shall begin at the moment the margin call for the Guarantee Fund Contribution Amount is transmitted by Takasbank is received by the Member. The fulfillment period of the margin call shall be stipulated in the Procedure provided

however that it shall be no more than 3 business days. If such call is failed to be fulfilled within its time period, then the Member shall be deemed to have defaulted.

CHAPTER SIX

Default

Acceleration of the lending transactions and default

ARTICLE 30 -

- (1) Except for the lending transactions with no maturity date, the borrower shall have no right to claim the termination of the lending transaction before its maturity date by returning the security it has borrowed.
- (2) Debts arising from the lending transactions shall become due and payable in the following situations:
 - a) On the maturity date of the debt,
 - b) Failure of the Member to fulfill its margin call and guaranteed contribution amount obligations in accordance with the principles and procedures stipulated in the Procedure,
 - c) Decision made by Takasbank for the liquidation of the outstanding liabilities of the member pursuant to article 8 of this Directive,
 - ç) Removal of the security subject to the lending from the list of eligible securities that may be subject to leveraged buyout and short selling pursuant to the provisions of the Communique.
- (3) In case the obligations are failed to be fulfilled by the maturity date of the debt in accordance with the principles and procedures stipulated in the Procedure, the Member shall be deemed to have defaulted without having to serve any further notice. Pursuant to the third paragraph of article 35 of the Central Counterparty Regulation, the extra time to be granted to the defaulting Member may not exceed 3 business days.
- (4) The defaulting Member shall be liable to pay a default interest to be calculated according to the time and calculation methods specified in the Procedure and over a default interest rate determined in accordance with the second paragraph of article 31 of the Central Counterparty Regulation. If Takasbank has incurred any loss higher than the default interest amount because of the failure to settle the debt either partially or wholly, then such loss shall be indemnified by the Member. The transaction commission shall continue to be paid during the default.
- (5) In case of default, return of the security is essential. The responsibility of Takasbank against the lender in lending transactions shall be limited to the transaction commission as well as the delivery of the security subject to the lending on the maturity date; and, in case of failure to deliver it on the maturity date, its return by supplying it from the market in accordance with the principles and procedures stipulated in the Procedure; and in case of failure to return, then its cash equivalent calculated again in accordance with the principles and procedures stipulated in the Procedure and the transaction commission to be computed till the date of the payment. The rate of such transaction commission cannot exceed the default interest rate to be charged by Takasbank to the borrower during the default period.
- (6) In case Takasbank fails to deliver the security subject to the lending to the lender in accordance with the fifth paragraph of this article; then upon request of the lender, Takasbank shall be liable to pay the cash equivalent of the security subject to the lending on the maturity date to be calculated again on the maturity date in accordance with the principles and procedures stipulated in the Procedure together with the transaction commissions.
- (7) In case the debt of the borrowing member is accelerated and becomes payable due to the failure to fulfill its margin call obligation, Takasbank shall be entitled to fully liquidate the borrowings of such member in accordance with the default provisions by converting the collaterals in the relevant account causing the default into cash, purchasing the securities subject to the lending or to close off the borrowed amounts till the collateral rate satisfies the initial margin rate by starting from the debts that are nearest to the maturity date.
- (8) Takasbank has the right of settlement, offsetting and retention on the assets held with itself that are owned by the defaulting Central Counterparty member and other rights and receivables thereof. However, for the market or capital market instruments where multiple position accounts are used, only the positions and collaterals in the defaulting member's own portfolio can be used. Nevertheless, in the execution of this Directive, neither

the positions nor the collaterals of the customers other than the defaulted customer sub-accounts can be used under any circumstances.

- (9) If the debt is accelerated and becomes payable as a result of the removal of the securities subject to the lending from the list of eligible securities that may be subject to margin trading and short selling, the lending transaction shall be liquidated in line with the time periods specified in the Communiqué. In case the borrowing member fails to fulfill its obligations in accordance with the procedures stipulated in the Procedure, the default provisions shall be applied and such obligations shall be liquidated pursuant to the provisions of this article.
- (10) If the debts of the borrowing member to Takasbank are accelerated and become payable due to the reasons described in the items (b) and (c) of the second paragraph of this article, a commission amount to be accrued until the maturity date and calculated in the manner specified in the Procedure shall be paid to the lending member. In such a case, the borrowing Member shall also be liable to repay the aforesaid commission amount to Takasbank. On the other hand, if the lending transaction becomes due and payable pursuant to the item (ç) of the second paragraph of this article, a commission payment shall be made to the lending Member for the period to be elapsed till the return date of the securities subject to the lending. Again in such a situation, the borrowing member shall also be liable to repay the aforesaid commission amount.
- (11) Details regarding the execution of the matters mentioned in this section regarding default shall be stipulated in the Procedure.

Default management

ARTICLE 31 -

- (1) For the defaulting member, articles 30 and 32 of this Directive and the provisions of chapter five of the Central Counterparty Regulation shall be applied by Takasbank. The deficits failed to be covered in this way shall be designated as the loss of Takasbank and of other members in order as laid down in the first paragraph of article 36 of the Central Counterparty Regulation.
- (2) If the capital that has been allocated in accordance with article 36 of the Central Counterparty Regulation against the risks being covered is used due to a default, then Takasbank shall replenish the used amount within a month. The allocated capital amount to be replenished in this way during one year period cannot exceed the amount determined in the beginning of the period. If a default reoccurs within the period of one month to be lapsed until the replenishment of the used capital, then the remaining portion of the allocated capital, if any, shall be used. The guarantee fund of the non-defaulting members shall be used for the portion failed to be recovered. Restoration of the capital shall not necessitate the return of the used guarantee fund contribution amounts.
- (3) Collections to be made later from the defaulting Member shall be distributed pursuant to the fifth paragraph of article 36 of the Central Counterparty Regulation of Takasbank.

Principles for the use of guarantee fund

ARTICLE 32 -

- (1) In default management; the non-cash contribution amounts in the guarantee fund belonging to the non-defaulting members shall be converted into cash when the funds that are available for use up to item (d) of the first paragraph of article 36 of the Central Counterparty Regulation fail to be sufficient and upon determination that the guarantee fund contribution amounts deposited in cash shall also be insufficient.
- (2) The contribution amounts deposited by the members who have joined to the guarantee fund after the occurrence of the relevant default or the contribution amounts deposited by the existing members against the risks they assumed after the occurrence of the default shall not be used.
- (3) The use of contribution amounts starts with the most liquid assets; and the ability to quickly be converted into cash constitutes the basis. Cash amounts arising from the conversion of non-cash contribution amounts in the guarantee fund into cash but not used shall be returned pro-rata to the members whose non-cash contribution amounts have been used.

- (4) For the distribution of loss assumed by the guarantee fund to the non-defaulting members, the shares of such members in the guarantee fund shall be taken as the basis.
- (5) The members are obliged to replenish, within 3 business days, their guarantee fund contribution amounts which have been deposited and used thereafter within the scope of the default management.
- (6) If the loss to be assumed by the guarantee fund seems likely to exceed 50% of the total fund size, the members may be asked to deposit the additional contribution amounts they have undertaken. The Members are obliged to provide the additional contribution amounts within 5 business days after the request made thereof.
- (7) A request for an additional guarantee fund contribution amount can be made from the members at most four times in one year period where a capital commitment is made for the covered risks pursuant to the seventh paragraph of article 36 of the Central Counterparty Regulation. The additional guarantee fund contribution amount to be requested in each case cannot exceed the guarantee fund contribution amount of each member that should have been deposited on the relevant date. The maximum loss that may be assumed by each member during one year period due to the default of other members can exceed neither the additional guarantee fund contribution amount that could be made four times in a year nor the total size of the deposited guarantee fund contribution amounts which constitute the basis of such additional guarantee fund contribution amounts.
- (8) If the additional guarantee fund contribution amounts requested from the members due to the default are used either partially or wholly, then the members shall be asked to restore their guarantee fund obligations to the level calculated pursuant to the item (d) of the first paragraph of article 36 of the Central Counterparty Regulation. However; the guarantee fund contribution amounts exceeding the maximum loss threshold that the Members may assume in one year period in case of default of other members shall only be used in the event of their own default until the end of the period. Upon the beginning of the new period, the loss sharing application specified in the first paragraph of article 36 of the Central Counterparty Regulation shall be restarted in accordance with the foregoing principles.

CHAPTER SEVEN

Miscellaneous and Final Provisions

Measures to be taken in extraordinary situations

ARTICLE 33 -

- (1) Takasbank shall be authorized to determine the measures to be taken in case of occurrence of any extraordinary situation where it foresees the operations and reliability of the SLM may be adversely affected, and to implement these measures accordingly. In such cases, Takasbank, further to the appropriate measures among those specified in the second and third paragraph of article 48 of the Central Counterparty Regulation, shall also be authorized to change the trading hours, stop the order transmissions, cancel the transactions and amend their maturities as well as all types of other measures in respect thereof.

Disciplinary provisions

ARTICLE 34 -

- (1) The disciplinary provisions stipulated in Chapter Seven of the Central Clearing and Settlement Regulation shall apply to the Members who fail to comply with the obligations stipulated in the Directive.

TEMPORARY PROVISION 1

- (1) Sub-Group Limit, set as 40% for mortgage-backed securities, mortgage-based securities, asset-backed securities and asset-based securities, is to be applied as 100% for 1 year from the date when these securities are accepted as collateral in the market.
- (2) Borsa Istanbul Group Type "C" shares are considered as collateral while the buy-back guarantee of Borsa İstanbul remains.

Enforcement

ARTICLE 35 -

(1) This Directive has been accepted by the resolution of the Board of Directors numbered 338 and dated 26/10/2017 and shall enter into force from the date announced by Takasbank following its adoption by the Board.

Execution

ARTICLE 36 -

(1) The provisions of this Directive shall be executed by the Board of Directors.
